### **FERC-Form 80 Electronic Filing Instructions**

1. Select previous filer or new filer
  - a. Select “new filer” only if you have never completed a Form 80 for a particular project.
  - b. Previous filers: use any or all of the four fields to find your Form 80. Basic information for each project has been pre-populated.
  - c. For projects that have multiple developments, a Form 80 will be listed for each development. Select the PDF for the desired development. Single development projects will only have one project listed.
2. Save the PDF to your computer. (DO NOT change the filename as your eFiling will be rejected).
3. Complete the form data entry process off-line.  
NOTE: the form has changed since 2003; there are some new questions and some fields have been removed.
4. Electronically file your Form 80 for each development with the Commission via eFiling.

For your convenience and clarity during the electronic filing process, please select these filing options:

- Type of filing = Hydro: Washington DC
- What kind of filing are you making? = Report/form for existing project
- Filing Type = Form 80
