Your cooperation in completing this report will be of value to you and other hatcheries. This is important because sales of replacement pullets indicate the potential number of pullets available for addition to hatchery supply flocks several months before they actually move to the flocks.

This survey is voluntary. Individual reports are combined to estimate U. S. chicks hatched with the intention of being placed in the hatchery supply flock. Information from individual reports is kept strictly confidential. Please fax to the number above or mail your report in the enclosed postage paid envelope. Thank you.

Please make corrections to name, address and ZIP Code, if necessary.

INSTRUCTIONS: Please mail no later than the 10th of the month. **Include** replacement flocks. **Include** all sales.

During the month of **April**

1. What was the number of pullet chicks kept and/or sold as replacements in hatchery supply flocks?
2. What was the number of eggs sold for producing pullet chicks for replacement in hatchery supply flocks? (30 dozen eggs = 1 case).

	Broiler-Type for Export Including Canada	Broiler-Type for U.S. use only
300 Chicks	310	310 Chicks
301 Cases	311	311 Cases

During the month of **April**

3. What was the number of pullet chicks kept for your own flocks and/or sold as replacements in hatchery supply flocks?
4. What was the number of eggs sold for producing pullet chicks for replacement in hatchery supply flocks? (30 dozen eggs = 1 case).

	Egg-Type for U.S. use only
410 Chicks	410
411 Cases	411

5. Would you like to receive a free copy of the results of this survey in the mail?
(The survey results will also be available on the Internet at <http://www.usda.gov/nass/>) YES = 1

Comments:

According to the Paperwork Reduction Act of 1995, an agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a valid OMB number. The valid OMB number is 0535-0004. The time required to complete this information collection is estimated to average 12 minutes per response, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information.
