**Debriefing**

**1.** What happened when you clicked a link in topics?

    **1a.** Did you notice the animation? (*Yes, if they mentioned the animation in the previous question*)

    **1b.** What do you think the animations do?

**2.** What happened when you clicked "Go" after typing in "Ohio" to the Quick Start?

    **2a.** What did you expect to happen?

    **2b.** What did you think of the overlay showing the various results for Ohio?

    **2c.** What did you think of the separate search boxes?

    **2d.** Did you read the labels above them?

    **2e.** Did you notice the options below *(race/ethnicity, industry)*

**3.** Did you see the text underneath the labels on the left?

    **3a.** Did you find them helpful?

**3b.** Was there anything else (labels/terminology) you think should be listed?

**4.** During the study you clicked on a race selection *(or geography section).*

Where did you expect that selection to go?

**5.** *Have the participant select multiple tables and view them*

How would you see all of your selected tables at once?

**6.** Make sure to get feedback on the search within feature of the interface. If they don't talk about it during the study, open a screen with the search results list and have them talk about how they would refine the list.
