

Be Counted Form – Paper Protocol (Round 2)

INTERVIEW ID: _____

INTERVIEW DATE: ____/____/____ START TIME: _____ AM / PM

Hello, my name is _____. I work for RTI/RSS, a research company that has been hired by the Census Bureau to conduct research on the census forms. Thanks for agreeing to help us today. Let me start by telling you a little about what we will be doing. Every ten years the United States conducts a census, or count, of everyone who is living in the United States.

The form we're working on today is the kind you might find in a post office or library, and pick up if you thought that you had not been counted in the census.

Permission to Record:

Because it would be hard to keep track of everything you say today, I would like to record this session. [**HAND RESPONDENT THE CONSENT FORM.**] Please read over this consent form and let me know if you have any questions. When you are ready, please sign the form. I want you to know that your responses will be kept strictly confidential and will only be seen by members of the project team and Census employees. Your participation in this study is completely voluntary and you can decline to answer any particular question. At the end of the study, we will delete any record of your responses from our machines. Your name will never be used in any reports.

Think-out-loud Instructions:

What I'll ask you to do today is to fill the questionnaire out, just as you would if you received it at home.

So I can keep track of what you are doing, I'd like you to describe what you are doing and thinking as you go along. [**The think aloud example is optional.**] For example, I may ask you a question that seems relatively simple such as "How many cars do you have?" Instead of just providing a number, tell me what you were thinking when you answered it. For example, my response would be "Well I have an SUV that I drive every day and I also have an old truck. But the truck does not currently run. I assume that you mean working cars, so...one. I just have one car." This kind of response will help me understand how you understood and interpreted the question so that we can see what each question means to you. I may remind you to think aloud as we go along.

When you're done, I will ask you some additional questions about your answers to the Census. Some of these questions may sound a little strange. For example, I might ask you what a certain word means to you or how you came up with your answer. Again, the reason for this is to see how people understand each question. Even though some of these questions may sound like I am giving you a test, there are no right or wrong answers. We are interested in how these questions work for you.

Do you have any questions before we begin?

[**HAND FORM TO PARTICIPANT AND ASK THEM TO COMPLETE IT**]
