Good Afternoon,

The Census Bureau is pleased to offer a new opportunity for testing the American FactFinder (AFF) site remotely. You are encouraged to access the site through the link below. Your feedback is very important to us. You will be directed to answer four tasks using the AFF Web site. The questions will appear at the top of the AFF Website. After each task you will answer four satisfaction questions. At the end you will be asked a few final satisfaction questions about your experience with the Website during the test.

The Census Bureau is using Loop11 software to conduct this remote usability testing. (You may notice the Loop11 logo at the top of the Website.) Your participation is voluntary, your responses are anonymous and will not be linked to you. Testing should take no more than 15 minutes of your time. Thank you in advance for helping us test AFF.
