

Subject:

2010 DSS Voice of Industry Survey – *(Facility CAGE Code) (Facility Name)*

Body:

Dear *(FSO Name)*:

(Note, if you believe you are receiving this message in error please hit "reply" to inform DSS)

INTRODUCTION:

The Defense Security Service (DSS) conducts an annual survey of U.S. cleared defense industry for feedback on DSS performance with respect to the administration and implementation of the National Industrial Security Program (NISP). If you received this survey email invitation, DSS records indicate that you are the Facility Security Officer for a specific cleared facility.

The survey will close on *(date / time of close)* eastern standard time. Responses should only be submitted through the on-line survey. Please submit your projections by the *(close date)* closing date.

While participation in this survey is voluntary, DSS is requesting a 100 percent response rate to this census of NISP contractors to maintain the quality of our partnership with cleared defense industry.

BACKGROUND:

The survey is sent to all cleared industry facilities under the National Industrial Security Program (NISP). The collection of information requests the assistance of the Facility Security Officer or Senior Management Official to provide feedback. The data is analyzed and reported to DSS senior leadership for an assessment determination of DSS performance as per administration and implementation of the NISP.

CLICK ON YOUR LINK BELOW TO ACCESS THE SURVEY:

(Unique Survey URL)

If the link above doesn't work, be sure that the entire Survey Link is on the same line as the text may have wrapped on to the next line. Alternatively, you may access the survey by copying and pasting the link into your internet browser. If you have any trouble loading the survey, please email *(DSS Survey Mailbox)* with a detailed description of the error.

If you have any questions regarding the survey or the requested data you may contact the DSS Survey Team at *(DSS Survey Mailbox)*

Thank you for your support of this important initiative.

Sincerely,

Richard Lawhorn

Director, Industrial Security Field Operations
