

the same as the input report (.dmp) files that are produced when the Portable Format file is exported from Aspen HYSYS version 7.1 and Aspen HYSYS Dynamics version 7.1, and then imported as a new case in HYSYS 2006.0 Update, and (ii) running HYSYS 2006.0 Update in calculation mode, each case in the HYSYS Portability Test Suite demonstrates that the calculation results from the original case file and the calculation results from the exported/imported case file are substantially the same. The HYSYS Portability Suite is a group of test cases provided by Aspen and reviewed by the Monitor that tests the capability of the Portable Format Export/Import Feature to import and export all Input Variables. The Order requires Aspen to fix any errors in the Portable Format Export/Import of the HYSYS 2006.0 Update discovered by the Monitor during the Validation process.

To facilitate Honeywell's development of the capability to import cases exported by Aspen using the Portable Format Export/Import Feature, the Proposed Modifying Order requires Aspen to provide Honeywell with the HYSYS 2006.0 Update, including object and source code, the HYSYS Portability Test Suite, and Technical Documentation of any modifications to the Portable Format or Input Variables between the HYSYS 2006.0 Update and the versions of HYSYS 7.1 or HYSYS Dynamics 7.1 current as of April 30, 2009.

To ensure all HTFS+ products have functional Portable Format Export/Import Features, Aspen is required to provide the Monitor and Honeywell with Technical Documentation of the HTFS+ Portable Format and an HTFS+ Test Suite. The Monitor will review both the Technical Documentation and HTFS+ Test Suite and require any necessary modification.

During the term of the Proposed Modifying Order, Aspen is required to take certain actions before releasing any new version of Aspen HYSYS, Aspen HYSYS Dynamics, or of the covered heat exchange software products. Aspen is required to provide the Monitor with a beta version of planned new releases of these products for review and Validation. The Monitor must be able to validate new versions of Aspen HYSYS and Aspen HYSYS Dynamics by verifying (i) that native input report (.dmp) text files in the new release are shown to be substantially the same as the input report (.dmp) files that are produced when the Portable Format file is exported and then imported as a new case in the new release, (ii) as to Input Variables common to the new release

and HYSYS 2006.0 Update, that the native input report (.dmp) text files for each case in the HYSYS Portability Test Suite are shown to be substantially the same as the input report (.dmp) files that are produced when the Portable Format file is exported from the new release and then imported as a new case in HYSYS 2006.0 Update, and (iii) the Portable Format Export/Import Feature is used in the new release in a substantially similar manner as such feature is used in HYSYS 2006.0 Update. Aspen cannot release the new version until the Monitor completes Validation of the product, provided that the Monitor completes such Validation in a timely fashion; otherwise, the Validation may be completed post-release.

Aspen is also required to provide the Monitor with Technical Documentation of Portable Format tags for all new Input Variables in the proposed new release, which the Monitor shall review for completeness. Aspen must also provide Honeywell with a copy of the Technical Documentation two weeks prior to publishing the new release. The Documentation provided to Honeywell must either incorporate revisions to the Technical Documentation required by the Monitor or provide such revisions as an update to the documentation, depending on when the Monitor informs Aspen of the need for such revisions.

If, during the term of the Proposed Modifying Order, Aspen replaces XML as the Portable Format used in Aspen HYSYS, Aspen HYSYS Dynamics, or the covered heat exchanges simulation software products, the Monitor must determine the appropriate procedure for Validating releases using the new Portable Format and providing Technical Documentation to Honeywell. Aspen cannot ship a new release of Aspen HYSYS, Aspen HYSYS Dynamics, or the covered heat exchanges simulation software products until two weeks after it has provided to Honeywell all Technical Documentation required by the Monitor.

By direction of the Commission, with Commissioner J. Thomas Rosch recused.

Request for Public Comment: 60-Day Proposed Information Collection: Application for Participation in the IHS Scholarship Program

AGENCY: Indian Health Service.

ACTION: Notice.

SUMMARY: In compliance with Section 3506(c)(2)(A) of the Paperwork Reduction Act of 1995 which requires to provide a 60-days advance opportunity for public comment on proposed information collection projects, the Indian Health Service (IHS) is publishing for comment a summary of a proposed information collection to be submitted to the Office of Management and Budget (OMB) for review.

Proposed Collection: Title: 0917-0006, "Application for Participation in the IHS Scholarship Program." *Type of Information Collection Request:* Three year extension, with change of currently approved information collection, 0917-0006, "Application for Participation in the IHS Scholarship Program." *Form Number(s):* IHS-856, 856-2 through 856-24, IHS-815, IHS-816, IHS-817, and JHS-818. Reporting formats are contained in an IHS Scholarship Program application booklet. *Need and Use of Information Collection:* The IHS Scholarship Branch needs this information for program administration and uses the information to solicit, process, and award IHS Pre-graduate, Preparatory, and/or Health Professions Scholarship grantees and monitor the academic performance of awardees, to place awardees at payback sites, and for awardees to request additional program information. The IHS Scholarship Program is streamlining the application to reduce the time needed by applicants to complete and provide the information and plans on using information technology to make the application electronically available on the Internet. *Affected Public:* Individuals, not-for-profit institutions and State, local or Tribal Governments. *Type of Respondents:* Students pursuing health care professions.

The table below provides: Types of data collection instruments; Estimated number of respondents; Number of responses per respondent; Annual number of responses; Average burden hour per response; and Total annual burden hours.

Agency Recordkeeping/Reporting Requirements Under Emergency Review by the Office of Management and Budget (OMB)

Title: Application for the Emergency Form for CSBG/ARRA Expenditure Report.

OMB No.: New Collection.

Description: On February 17 2009, President Obama signed into law the American Recovery and Reinvestment Act of 2009 (Recovery Act). The Recovery Act provided for \$1 billion in additional funds to the Community Services Block Grant (CSBG) program for Federal Fiscal Year 2009; however the grant period runs through FY 2010. As with regularly appropriated CSBG funds, Recovery Act funds may be used for the reduction of poverty, the revitalization of low-income communities, and the empowerment of low-income families and individuals in rural and urban areas to become fully self-sufficient.

To be in compliance with Recovery Act (Pub. L. 111-5) Section 1512(c)(1) through (B) a backup sheet was created to identify the various activities that make up the total Federal share of outlays reported on the 269A Report line 10(a). The CSBG/ARRA Fund provides resources to States, Territories, and Tribes to support work and families during this difficult economic period.

We plan to issue a backup sheet for the 269A Report with instructions for jurisdictions to complete; which would provide detail information to support
