*Focus Group Screener for Minors  
Infertility Prevention Campaign*

*Public reporting burden of this collection of information is estimated to average 5 minutes per response, including the time to respond to these questions. An agency may not conduct or sponsor, and a person is not required to respond to a collection of information unless it displays a currently valid OMB control number. Send comments regarding this burden estimate or any other aspect of this collection of information, including suggestions for reducing this burden to CDC/ATSDR Reports Clearance Officer; 1600 Clifton Road NE, MS D-74, Atlanta, Georgia 30333; ATTN: PRA (0920-XXXX)*

I would like to ask you a few questions to see if you qualify to participate in a 2 hour discussion group (or focus group) the CDC is conducting to understand how to communicate with teens and young women about measures they can take now to protect their health and prevent infertility in the future. The focus groups will ask teens to give their opinions on how information is presented and whether it is easy to understand. Everyone who participates in these discussions will be paid \$75. My questions today will only take a few moments to answer, and if you are selected, I will schedule you for a focus group at a time that is convenient for you. Do you have time now to answer a few questions?

I'm going to ask you several health-related questions. Some of these questions may sound personal but this information will help me to ensure that the groups will include a lot of different people.

*Note for Recruiters:*

Please use the following language for termination of screening:

"I'd like to thank you very much for your time today. We are looking to recruit a mix of young women from across the country to help with this study. Right now we are still in the process of recruitment, and if we need your help, we will call you back."
