

JUSTIFICATION STATEMENT

SUBJECT: Nonmaterial or non-substantive change to a currently approved collection (formerly 83C) # 0985-0006

AoA requests a nonmaterial or non-substantive change to the existing approved collection in order to accomplish two goals 1) the instrument needed to be revised for 508 compliance so that it could remain on the aoa.gov website, and 2) we wanted to remove the specific references to Title II and IV in the tool because the requirements outlined apply to ALL AoA grantees, not only those funded under the cited titles.

There is no change the the burdon hours or costs that would result from the proposed changes to the instrument.
