Request to Exceed Regulatory Allowance Limitation BOEMRE Form MMS-4393

General Instructions

The BOEMRE Form MMS-4393 is used by the reporter to ensure that BOEMRE receives the lease data required to make a decision on the request to exceed the regulatory allowance limitations by including the lease number, the agreement number (if applicable), the product code, and the sales type code for the product being processed or transported.

In accordance with 30 CFR 206.109 for Federal oil, §206.156 for Federal gas, §206.54 for Indian oil, and §206.177 for Indian gas, your transportation allowance deduction at the sales type code level may not exceed 50 percent of the value of the oil, unprocessed gas, residue gas, or gas plant product. Upon request of a lessee, BOEMRE may approve a transportation allowance deduction in excess of the limitations. To receive this approval, the lessee must demonstrate that the transportation costs incurred in excess of the limitations were reasonable, actual, and necessary. Under no circumstances may an allowance reduce the value for royalty purposes under any individual contractual arrangement to zero. An application for exception (using BOEMRE Form MMS-4393, Request to Exceed Regulatory Allowance Limitation) must contain all relevant and supporting documentation necessary for BOEMRE to make a determination.

In accordance with §206.158 for Federal gas, the processing allowance deduction on the basis of an individual contractual arrangement may not exceed 66 2/3 percent of the value of each gas plant product (such a value to be reduced first for any transportation allowances related to postprocessing transportation authorized by §206.156). Upon request of a lessee, BOEMRE may approve a processing allowance in excess of the regulatory allowance limitation. The lessee must demonstrate that the processing costs incurred in excess of the regulatory allowance limitation were reasonable, actual, and necessary. An application for exception (using BOEMRE Form MMS-4393, Request to Exceed Regulatory Allowance Limitation) must contain all relevant and supporting documentation necessary for BOEMRE to make a determination. Please note that lessee's on Indian lands are not allowed to exceed the regulatory processing allowance limit of 66 2/3 percent.

The reporting period will begin the first day of the calendar year or when the transportation or processing contract begins, is modified or amended, and will end the last day of the calendar year or when the transportation or processing contract or rate terminates, is modified or amended whichever is earlier.
