Non-response survey for potential users of moderate-resolution imagery

## Non-Response Survey Path 5: Potential Users of Moderate-Resolution Imagery

The non-response path will only be administered if the response rate to the survey is less than 70%.

## Introduction

Thank you for participating in this study.

Please answer these questions as an individual and not on behalf of your organization, unless instructed otherwise.

Questions 1-3 will be used to determine if there are any significant differences between respondents and non-respondents in terms of their use of satellite imagery, the applications for which they use that imagery, and the sector in which they work.

## Q1

For the purposes of this study, moderate-resolution imagery is that which:

- covers relatively large geographic areas (>60 km<sup>2</sup>),
- has a spatial resolution between 5 and 120 m,
- is characterized by repetitive coverage, and
- includes measurements from several portions of the electromagnetic spectrum.

Moderate-resolution imagery is collected by Landsat, SPOT, ASTER, Resourcesat, CBERS, and other missions. To see examples of products based on moderate-resolution imagery, <u>click here</u>.

Examples of products based on moderate-resolution-imagery include:

- National Land Cover Database
- LandFire and Gap Analysis Project vegetation maps
- Wildfire burn severity maps produced by the USGS
- Coastal Zone Analysis Program land cover change products
- USDA National Agricultural Statistical Service crop type maps
- FireLine from Insurance Services Office (ISO)
- Google Earth (moderate-resolution mixed with higher resolution imagery)

	on the definition below, have you ever used, processed, or supplied moderate-resolution imagery in your
work?	Please check only one.
	Yes
	$No \rightarrow Q3$
	Don't know $\rightarrow END$
Q2	
What i	s the primary area in which you have used moderate-resolution/Landsat imagery? Please check only one.
	Agricultural forecasting
	Agricultural management/production/conservation
	Biodiversity conservation
	Climate science/change
	Coastal science/monitoring/management

	Ecological/ecosystem science/monitoring
	Fish and wildlife science/management
	Fire science/management
	Forest science/management
	Geology/glaciology
	Land use/land cover change
	Oil and gas/mineral exploration/extraction
	Range/grassland science/management
	Recreation management
	Water resources (for example, watershed management, water rights, hydrology)
	Rural planning and development (for example, zoning, economic development, land use)
	Urban planning and development (for example, zoning, economic development, land use)
	Urbanization (for example, growth, sprawl)
	Engineering/construction/surveying
	Assessments and taxation
	Real estate/property management
	Software development
	Telecommunications
	Transportation
	Utilities
	Anthropology/archaeology/cultural resource management
	Education: K-12
	Education: university/college
	Technical training (for example, workshops, short courses)
	Emergency/disaster management
	Hazard insurance (for example, crop, flood, fire)
	Humanitarian aid
	Public health
	Defense/national security
	Environmental regulation
	Law enforcement
	Other area (please specify)
Q3	
	t sector do you work or research? Please check all that apply.
	Academic institution (for example, university, college)
	Federal government
	State government
	Local government (for example, county, municipal)
	Private business

Non-response survey for potential users of moderate-resolution imagery

Non-response survey for potential users of moderate-resolution imager	y
☐ Non-profit organization	
☐ Tribe or nation	
☐ Other (please specify)	-

PAPERWORK REDUCTION ACT STATEMENT: A Federal agency may not conduct or sponsor, and a person is not required to respond to a collection of information unless it displays a currently valid OMB control number. Public burden for the collection of this information is estimated to average 3 minutes per response, including the time for reviewing instructions and completing the form. Comments regarding this collection of information should be directed to the USGS information Collection Officer, Phadrea Ponds, U.S. Geological Survey, 2150-C, Center Avenue Fort Collins, CO 80525..Control Number: XXXX, expires XX/XX/XXXX.
