

renewal in compliance with the Paperwork Reduction Act. The ICR describes the nature of the information collection and its expected burden. TSA published a **Federal Register** notice, with a 60-day comment period soliciting comments, of the following collection of information on November 16, 2009, 74 FR 58969. TSA has not received any comments. The collections of information that make up this ICR involve five broad categories affecting airports, passenger aircraft operators, foreign air carriers, indirect air carriers operating under a security program, and all-cargo carriers. These five categories are: security programs, security threat assessments (STA), known shipper data via the Known Shipper Management System (KSMS), cargo screening reporting, and evidence of compliance recordkeeping.

**DATES:** Send your comments by April 5, 2010. A comment to OMB is most effective if OMB receives it within 30 days of publication.

**ADDRESSES:** Interested persons are invited to submit written comments on the proposed information collection to the Office of Information and Regulatory Affairs, Office of Management and Budget. Comments should be addressed to Desk Officer, Department of Homeland Security/TSA, and sent via electronic mail to [oir\\_submission@omb.eop.gov](mailto:oir_submission@omb.eop.gov) or faxed to (202) 395-6974.

**SUPPLEMENTARY INFORMATION:**

**Comments Invited**

In accordance with the Paperwork Reduction Act of 1995 (44 U.S.C. 3501 *et seq.*), an agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a valid OMB control number. The ICR documentation is available at <http://www.reginfo.gov>. Therefore, in preparation for OMB review and approval of the following information collection, TSA is soliciting comments to—

- (1) Evaluate whether the proposed information requirement is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;
- (2) Evaluate the accuracy of the agency's estimate of the burden;

- (3) Enhance the quality, utility, and clarity of the information to be collected; and

- (4) Minimize the burden of the collection of information on those who are to respond, including using appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology.

**Information Collection Requirement**

*Title:* Air Cargo Security Requirements.

*Type of Request:* Renewal of one currently approved collection.

*OMB Control Number:* 1652-0040.

*Form(s):* Aviation Security Known Shipper Verification Form, Aircraft Operator or Air Carrier Reporting Template, Security Threat Assessment Application, Aviation Security Known Shipper Verification Form.

*Affected Public:* The collections of information that make up this ICR involve regulated entities including airports, passenger aircraft operators, foreign air carriers, indirect air carriers operating under a security program, and all-cargo carriers.

*Abstract:* TSA is seeking renewal of an expiring collection of information. Congress set forth in the Aviation and Transportation Security Act (ATSA), Public Law 107-71, two specific requirements for TSA in the area of air cargo security: (1) To provide for screening of all property, including U.S. mail, cargo, carry-on and checked baggage, and other articles, that will be carried aboard a passenger aircraft; and (2) to establish a system to screen, inspect, report, or otherwise ensure the security of all cargo that is to be transported in all-cargo aircraft as soon as practicable. In the Implementing Recommendations of the 9/11 Commission Act of 2007, Public Law 110-53, Congress requires that 50 percent of cargo transported on passenger aircraft is screened by February 2009, and 100 percent of such cargo is screened by August 2010.

TSA must proceed with this ICR for this program in order to meet the Congressional mandates and current regulations (49 CFR 1542.209, 1544.205, 1546.205, and part 1548) that enable them to accept, screen, and transport air cargo. The uninterrupted collection of this information will allow TSA to continue to ensure implementation of these vital security measures for the protection of the traveling public.

This information collection requires the "regulated entities," who may include passenger and all-cargo aircraft operators, foreign air carriers, and indirect air carriers (IACs), to

implement a standard security program or to submit modifications to TSA for approval, and update such programs as necessary. The regulated entities must also collect personal information and submit such information to TSA so that TSA may conduct security threat assessments (STA) for individuals with unescorted access to cargo, and any individual who has responsibility for screening cargo under 49 CFR parts 1544, 1546, or 1548. Aircraft operators and foreign air carriers must report the volume of accepted and screened cargo transported on passenger aircraft. Further, TSA will collect identifying information for both companies and individuals whom aircraft operators, foreign air carriers, and IACs have qualified to ship cargo on passenger aircraft. This information is primarily collected electronically via the Known Shipper Management System (KSMS). Whenever the information cannot be entered into KSMS, the regulated entity must conduct a physical visit of the shipper using the Aviation Security Known Shipper Verification Form and subsequently enter that information into KSMS. These regulated entities must also maintain records pertaining to security programs, training, and compliance. The forms used in this collection of information include the Aviation Security Known Shipper Verification Form, Cargo Reporting Template, and the Security Threat Assessment Application.

*Number of Respondents:* 4,890.

*Estimated Annual Burden Hours:* An estimated 73,567 hours.

Issued in Arlington, Virginia, on February 26, 2010.

**Intent To Request Renewal From OMB of One Current Public Collection of Information: Aviation Security Infrastructure Fee Records Retention**

**AGENCY:** Transportation Security Administration, DHS.

**ACTION:** 60-Day notice.

**SUMMARY:** The Transportation Security Administration (TSA) invites public comment on one currently approved Information Collection Request (ICR), to

OMB control number 1652-0001, abstracted below that we will submit to the Office of Management and Budget (OMB) for renewal in compliance with the Paperwork Reduction Act. The ICR describes the nature of the information collection and its expected burden. The information collection would require the retention of certain information necessary for TSA to help set the Aviation Security Infrastructure Fee (ASIF), including information about air carriers' and foreign air carriers' costs related to screening passengers and property in calendar year 2000.

**DATES:** Send your comments by May 3, 2010.

**ADDRESSES:** Comments may be e-mailed to [TSAPRA@dhs.gov](mailto:TSAPRA@dhs.gov) or delivered to the TSA Paperwork Reduction Act (PRA) Officer, Office of Information Technology (OIT), TSA-40, Transportation Security Administration, 601 South 12th Street, Arlington, VA 20598-6040.

**FOR FURTHER INFORMATION CONTACT:** Joanna Johnson at the above address, or by telephone (571) 227-3651.

**Information Collection Requirement**

OMB Control Number 1652-0001; Aviation Security Infrastructure Fee Records Retention, 49 CFR part 1511. To help defray TSA's costs of providing civil aviation security services, and as authorized by 49 U.S.C. 44940, TSA

published in the **Federal Register** on February 20, 2002, an interim final rule adding part 1511 to the Transportation Security Regulations, which imposed a fee known as the Aviation Security Infrastructure Fee (ASIF) on certain air carriers and foreign air carriers. See 67 FR 7926, as codified at 49 CFR part 1511. The amount of ASIF collected by TSA from the carriers, both overall and per carrier, is based upon the carriers' aggregate and individual costs, respectively, for screening passengers and property in calendar year 2000. 49 U.S.C. 44940(a)(2)(B)(i), (ii).

In conjunction with the issuance of part 1511, TSA requested OMB approval to collect information necessary for TSA to establish the ASIF, including information about the carriers' individual and aggregate costs related to screening passengers and property in calendar year 2000. This information collection included submissions to TSA of data on the carriers' screening-related costs and also of independent audits of that data. This information collection is currently approved under OMB number 1652-0001.

**Purpose of Information Collection**

Under Part 1511, carriers must retain any and all documents, records, or information related to the amount of the ASIF, including all information applicable to the carrier's calendar year 2000 security costs and information reasonably necessary to complete an audit. The information collection proposed under this notice is intended to apply to the retention requirement of 49 CFR 1511.9. This requirement includes retaining the source information for the calendar year 2000 screening costs reported to TSA; the calculations and allocations performed to assign costs submitted to TSA; information and documents reviewed and prepared for the required independent audit; the accountant's working papers, notes, worksheets, and other relevant documentation used in the audit; and, if applicable, the specific information leading to the accountant's opinion, including any determination that the accountant could not provide an audit opinion.

**Description of Information Collection**

The information collection, submission, and retention requirement applies to each air carrier and foreign air carrier that incurred costs for the screening of passengers and property in calendar year 2000. It is estimated that the 191 respondent air carriers and foreign air carriers will each on average incur \$104.06 annually, which includes \$54.60 in records storage and \$50 in

labor costs for 2 hours of records management at \$25 per hour. For each subsequent year, the total burden for 196 air carriers is estimated at \$19,875.46 per year. Thus, the annual average burden related to this requirement for all respondents combined over a three-year period is at a cost of \$59,626.38. The subject records may be used by TSA to make determinations regarding security-related costs in calendar year 2000, including conducting reviews and otherwise ensuring compliance with 49 CFR 1511.

Issued in Arlington, Virginia, on February 26, 2010.
