SUPPLEMENTARY INFORMATION: The National Flood Insurance Program (NFIP) is authorized by Public Law 90-448 (1968) and expanded by Public Law 93-234 (1973). The National Flood Insurance Act of 1968 requires that the Federal Emergency Management Agency (FEMA) provide flood insurance. Title 44 CFR 60.3, Floodplain management criteria for flood-prone areas, ensures that communities participating in the NFIP, in Special Flood Hazard Areas (SFHAs), have basement construction at the lowest floor elevation or above the 100 year flood elevation, or Base Flood Elevation. This requirement is to reduce the risks of flood hazards to new buildings in SFHAs and reduce insurance rates. Title 44 CFR 60.6(c) allows communities to apply for an exception to permit and certify the construction of flood proof residential basements in SFHAs. This certification must ensure that the community has demonstrated that the areas of special flood hazard, in which residential basements will be permitted, are subject to shallow and low velocity flooding and adequate flood warning time to notify residents of impending floods.

OMB Number: 1651-0083.

Form Number: 450.

Abstract: This collection of information is required to implement the duty preference provisions of the United States-Caribbean Basin Trade Partnership Act (CBTPA). Type of Review: Extension with a change to the burden hours.
