<p>At the time NCES requested a 3 year generic system clearance for the NAEP assessments to be administered in the 2011–2013 timeframe (OMB# 1850-0790 v.26), the full details of the sampling plan for the 2011 NAEP administration were not yet fully finalized. The Wave I and Wave II approval requests to OMB (OMB#: 1850-0790 v.27 and v.29) reflect the finalized sampling plans. In the system clearance request, NCES projected 325,583 burden hours for all of the NAEP 2011 data collections subject to OMB approval, but the finalized sampling calls for a 358,801 burden hour total. This is primarily due to the fact that NAEP will collect data on more students with disabilities (SD) and English language learners (ELL), but instead of using one worksheet per student, school staff will now fill out a single worksheet for a number of SD and ELL students. This leads to a decrease in the total number of respondents/responses, but an increase in total burden hours. We thus are requesting OMB approval of the decrease in the number of respondents/responses and an increase in the total burden hours.</p>
