Dear Clinician: Your patient is planning on participating in a **vigorous** outdoor summer sporting rehabilitation clinic. Examples of high-risk patients are: a smoker who is overweight; brittle diabetics; patients with significant COPD or CHF; and patients that require close medical supervision. High risk patients: those with potential sun exposure risks and possible hypothermia risks - these events will be outside in high sun and potential cold water temperatures. Patients are admitted to this clinic based on your judgements about their current health status.

IF THEY REQUIRE HOSPITALIZATION FOR A PRE-EXISTING CONDITION, YOUR MEDICAL CENTER WILL BE LIABLE FOR ANY CHARGES INCURRED OUTSIDE OF VA CARE. DO NOT SEND ANY PATIENT THAT IS CURRENTLY UNSTABLE OR UNDERGOING EVALUATION FOR CLINICAL INSTABILITY.

If the patient's condition changes before the event, please contact Dr. John Hunter at the Grand Junction VAMC, (970) 242-0731-page through operator or contact Department of Medicine, ext. 4247, e-mail John.Hunter@va.gov.
