SS No.
REQ –

You may not be paid benefits under the Railroad Unemployment Insurance Act for general benefit year July 1, 20XX through June 30, 200X unless you had railroad earnings (not counting over \$XXX for any one month) of at least \$XXX in 20XX; also, if XXXX was your first year in railroad work, you must have railroad service in at least five months in 20XX.

According to our record for your social security account number, shown above, you did not work for a railroad before 20XX. Our records for XXXX show that although you do have the required earnings, you did not have five months of railroad service.

If you did have the required service in XXXX, or if you had railroad service at any time before XXXX, complete and return the enclosed form. Be sure to show on the enclosed form all the payroll names and social security account numbers you have ever used in railroad employment.

Robert J. Duda
Director of Operations
