CATCH REPORT FORM - COLOMBIAN TREATY WATERS

Print clearly all information

Use a separate log sheet for each entry into each area fished (Quito Sueno, Roncador, Serrana).

Each vessel of the U.S. must report its catch and effort on each trip into treaty waters. Mail completed forms so as to be received not later than 7 days after the end of each fishing trip to:

National Marine Fisheries Service
Regulations & Permits Branch
9721 Executive Center Drive N.
St. Petersburg, FL 33702

Vessel Name - Enter the vessel name as it appears on the permit.

Official No. - Enter the U.S. Coast Guard documentation number of the vessel or the state registration number, if the vessel is not documented.

Area Fished - Check only one on each form submitted.

Date entered/departed area - Enter appropriate dates for each fishing trip into the area checked.

Gear - Check one or more boxes to indicate the fishing gear or method employed in the area checked during the period covered by the report. For each gear/method checked, (1) indicate the percentage of the total catch during the period covered by the report that was taken by each gear and (2) complete the effort data as follows:

Traps:

- No. Traps Fished - Total number of traps used during the period covered by the report.
- No. Trap Hauls - The total number of hauls made during the period covered by the report, including hauls with no catch. Ten traps each pulled 3 times would equal 30 hauls.
- Av. Soak Time Between Hauls - The average time in hours the traps were in the water between hauls.
- Mesh Sizes - Record the mesh sizes in inches. For example, 1x2 for rectangular meshes 1" by 2"; 1.5x1.5 for rectangular meshes 1 1/2 by 1 1/2; or 1.5 x hex for hexagonal meshes 1 1/2" on each side.

Longline:

- No. Sets Made - Total number of times a longline was set during the period covered by the report.
- Av. No. Hooks per Set - The average number of hooks on the longline.
- Av. Line Length per Set - The average length of the line in feet.
- Av. Time Sets Fished - The average time in hours the longlines were in the water from start of set to start of pickup.

Hook & Line (includes bandit gear, rod and reel and hand line)

- No. Lines Fished - Total number of lines used during the period covered by the report.
- Av. No. Hooks per Line - The average number of hooks on each line.
- Total Hours Fished - Total time in hours this gear was used during the period covered by the report.

Diving:

- No. Divers - Total number of divers used during the period covered by the report.
- Total No. Days Diving - The number of days during the period that diving was conducted.
- Man-hours Worked per Day - For the days worked, the average number of man-hours spent diving. For example, 5 divers who average 6 hours diving per day would yield 30 man-hours worked/day.
- Check if Targeted - Indicate the primary species harvested by diving.

Catch - Record the catch in pounds of each species during the period covered by the report. For lobster and conch, record the weight in the appropriate column either as whole or cleaned weight.

Operator's Signature - The operator is the master or other individual on board and in charge of the vessel. Type or print the name below the signature and indicate the date signed.

Public reporting burden for this collection of information is estimated to average 18 minutes per response for fishing forms and 2 minutes to submit a no-fishing response including the time for reviewing the instructions, searching the existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. Send comments regarding this burden estimate or any other aspects of this burden to Robert Sadler, National Marine Fisheries Service, 9721 Executive Center Drive N., St. Petersburg, Florida 33702. This reporting is required under and is authorized under 50 CFR

622.5(a)(1). Information submitted will be treated as confidential in accordance with NOAA Administrative Order 216-100. Notwithstanding any other provision of the law, no person is required to respond to, nor shall any person be subject to a penalty for failure to comply with, a collection of information subject to the requirements of the Paperwork Reduction Act, unless that collection displays a currently valid OMB Control Number. The NMFS requires this information for the conservation and management of marine fishery resources.
