Environmental Questions T1 Visit

EQ001   I will be conducting the environmental sample collection in your home today. I would like to collect a vacuum dust sample in your bedroom, and air samples and dust wipe samples in the room where you spend the most time while you are awake. I may collect a water sample from your kitchen as well. We need to collect the air samples over a one week period. So, I will set up an air sampling station today and start air sample collection. In about a week, someone will come back to pick up the air sample equipment. We will work with you to schedule a time for the pick up visit.

First, I have a few questions to help me determine where to collect these samples.

EQ010   Thank you so much. In order to shorten the length of our visit today, it would be helpful if I could collect the
         environmental samples while you are being interviewed. I will need to go into your {kitchen, bedroom, and the room
         where you spend the most time/bedroom and the room where you spend the most time}. Would it be okay for me to
         collect these samples during your interview?
                    YES..1
                    NO...2

         DISPLAY INSTRUCTION:
         IF TARGET = DISINFECTION BYPRODUCTS OR IF EQ002 IN "1", "7", "8", DISPLAY "{bedroom, kitchen, and the
         room where you spend the most time}"
         OTHERWISE, DISPLAY "bedroom and the room where you spend the most time while you are awake}"
