

**Addendum to the Supporting Statement for
SSA-1199-(Country)
International Direct Deposit
31 CFR 210
OMB No. 0960-0686**

Justification for Non-Substantive Change to the Collection

We decided to make minor changes to our 1199 forms in an attempt to make them more user-friendly and standardized. There are no changes to the instructions on pages two & three. The changes made are minor and will only affect the placement of the information currently on the document. These changes will allow a more unified appearance, which we hope will make them easier to read. These changes were not included in our previous submission because we had not received feedback from the processing centers on the new form prior to submission. The feedback we received from the processing centers raised some concerns about the placement of the information on the document. After several meetings with FRBNY and the Office of International Operations (OIO), we came up with a more cohesive document which we feel will reduce errors and to help streamline the enrollment process.
