BILLING CODE 9111-97-P

DEPARTMENT OF THE INTERIOR

Office of the Secretary

Revision of Information Collection; Non-Use Valuation Survey, Klamath Basin; Correction and Supplement

AGENCY: U.S. Department of the Interior.

ACTION: Correction and Supplement.

SUMMARY: In compliance with section 3506(c)(2)(A) of the Paperwork Reduction Act of 1995, the Office of the Secretary of the Department of the Interior announces the proposed revision of an information collection "Klamath Non-use Valuation Survey," Office of Management and Budget (OMB) Control No. 1090-0010, and that it is seeking comments on its provisions. As required by the Paperwork Reduction Act of 1995 and as part of our continuing efforts to reduce paperwork and respondent burden, we invite the general public and other Federal agencies to take this opportunity to comment on this information collection.

ADDRESSES: You may submit your comments directly to the Desk Officer for the Department of the Interior (OMB 1090-0010), Office of Information and Regulatory Affairs, OMB, by electronic mail at OIRA_DOCKET@omb.eop.gov or by fax at 202-395-5806. Please also send a copy of your comments to the Department of the Interior; Office of

Policy Analysis, Attention: Don Bieniewicz, Mail Stop 3530; 1849 C Street, NW., Washington, DC 20240. If you wish to e-mail comments, the e-mail address is

Donald_Bieniewicz@ios.doi.gov.

Reference "Klamath Non-use valuation survey" in your e-mail subject line. Include your name and return address in your e-mail message and mark your message for return receipt.

DATES: OMB has 60 days to review this request but may act after 30 days, therefore you should submit your comments on or before September 29, 2010.

FOR FURTHER INFORMATION CONTACT:

Benjamin Simon, Economics Staff Director, Office of Policy Analysis, U.S. Department of the Interior telephone at 202-208-5978 or by e-mail at Benjamin_Simon@ios.doi.gov.

SUPPLEMENTARY INFORMATION:

I. Abstract

This Notice corrects and supplements the Notice that was published on August 30, 2010.

Office of Management and Budget (OMB) regulations at 5 CFR part 1320, which implement the Paperwork Reduction Act of 1995 (Pub. L. 104-13), require that interested members of the public and affected agencies have an opportunity to comment on information collection and recordkeeping activities (see 5 CFR 1320.8(d)). This notice identifies an information collection activity that the Office of the Secretary has submitted to OMB for revision.

The Klamath River provides habitat for fall and spring run Chinook salmon (*Oncorhynchus tshawytscha*), coho salmon (*Oncorhynchus kisutch*), steelhead trout (*Oncorhynchus mykiss*), green sturgeon (*Acipenser medirostris*), Pacific lamprey (*Lampetra tridentata*), and Pacific eulachon (*Thaleichthys pacificus*). Some of these species are important components of non-tribal harvest (e.g., fall Chinook, steelhead), some have important subsistence and cultural value to Klamath Basin tribes (e.g., salmon, sturgeon, lamprey, eulachon), and some are at low levels of abundance or Endangered Species Act-listed (e.g., spring Chinook, lamprey, coho, eulachon).

Studies on the potential removal of four dams on the Klamath River owned by PacifiCorp are being conducted as a result of the Klamath Hydroelectric Settlement Agreement (KHSA) executed February 18, 2010. Under the KHSA, the Secretary of the Interior is to determine by March 31, 2012, whether the potential removal of these dams will advance restoration of the salmonid

fisheries of the Klamath Basin and is in the public interest, which includes but is not limited to consideration of potential impacts on affected local communities and Tribes. The determination will be based on a number of factors, including an economic analysis. One part of the economic analysis is a non-use valuation survey that is designed to determine the potential benefits of dam removal that may accrue to members of the U.S. public who value such improvements regardless of whether they consume Klamath Basin fish or visit the Klamath Basin. Non-use valuation surveys such as the one discussed herein are routinely included as a part of the economic analysis for large-scale water development projects.

II. Data

Title: Klamath Non-Use Valuation Survey.

OMB Control Number: 1090-0010.

Type of Review: Revision of an approved collection.

Affected Entities: Households.

Respondent's Obligation: Voluntary.

Frequency of Response: One time.

Estimated Annual Number of Respondents: 10,885 households who will receive the survey (3,389 respondents and 7,496 non-respondents).

Estimated Total Annual Responses: 3,389.

Estimated Time per Response: The base for this survey is 10,885 households. The households will be divided into two mailing groups, at a 10/90 split. The first wave of mailings will be to 10% of the households. 17% of households are estimated to respond, which will take 30 minutes. Non-respondents will take 3 minutes. The second mailing will be sent to the remaining 83% of non-respondent households. 10% of the households are estimated to respond to the second mailing, taking 30 minutes. The second group of non-respondents are estimated to spend 3 minutes. The Department will then conduct preliminary analysis.

The second wave of mailings will be to the remaining 90% of the households. 17% of households are estimated to respond, which will take 30 minutes. Non-respondents will take 3 minutes. The second phase will be sent to the remaining 83% of non-respondent households. 10% of the households are estimated to respond to the second mailing, taking 30 minutes. The second group of non-respondents are estimated to spend 3 minutes.

The remaining non-respondents from the second mailings will be split into two groups in a 80/20 split. It is

assumed that 65% of the non-respondent households will have a phone number. Both groups will be sent another copy of the survey. For the households with a phone number, a non response bias call will be made, taking an estimated 2 to 5 minutes.

Estimated Total Annual Burden Hours: 3,205 hours.

III. Request for Comments

On June 9, 2009, we published in the *Federal Register* (74 FR 27340) a request for public comments on this proposed survey. No comments were received. This notice provides the public with an additional opportunity to comment on the proposed information collection activity. The Department of the Interior invites comments on:

(1) Whether or not the collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;

(2) The accuracy of the agency's estimate of the burden of the collection and the validity of the methodology and assumptions used;

(3) Ways to enhance the quality, utility, and clarity of the information to be collected; and

(4) Ways to minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other collection techniques or other forms of information technology.

Burden means the total time, effort, or financial resources expended by persons to generate, maintain, retain, disclose, or prove information to or for a Federal agency.

An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid Office of Management and Budget control number.

Dated: September 2, 2010.

Benjamin M. Simon,

Economics Staff Director, Office of Policy Analysis.

BILLING CODE 4310-RK-P

DEPARTMENT OF THE INTERIOR

U.S. Geological Survey

[USGS-2530-B98CA]

Proposed Information Collection; Nonindigenous Aquatic Species Sighting Reporting Form

AGENCY: United States Geological Survey (USGS), Interior.

ACTION: Notice; request for comments.

SUMMARY: We (the U.S. Geological Survey) have sent an Information Collection Request (ICR) to OMB for review and approval. The ICR, which is summarized below, describes the nature of the collection and the estimated burden on the public.

DATES: You must submit comment on or before October 8, 2010.

ADDRESSES: Send your comments and suggestions on this ICR to the Desk Officer for the Department of the Interior at OMB-OIRA at (202) 395-5806 (fax) or OIRA_DOCKET@OMB.eop.gov (e-mail). Please also send a copy of your comments on the ICR to Phadrea Ponds, Information Collection Clearance Officer, U.S. Geological Survey, 2150-C Centre Avenue Fort Collins, CO 80526 (mail); pondsp@usgs.gov (e-mail).

FOR FURTHER INFORMATION CONTACT: To request additional information about this ICR, please contact USGS, Pam Fuller by 7920 NW. 71st Street, Gainesville, Florida 32653 (mail); by telephone (352) 264-3481 or pfuller@usgs.gov (e-mail).

SUPPLEMENTARY INFORMATION:

I. Abstract

Information is collected from the public regarding the distribution of nonindigenous aquatic species, primarily fish, in open waters of the United States. This is vital information for early detection and rapid response for the possible eradication of organisms that may be considered invasive in a natural environment such as a lake, river, stream, and pond. These species are not native to the environment in which they are now found. Nonindigenous species can and do have negative impacts on our native species. Early detection is a major focus of the Bureau. The public can help us with this task by serving as the "eyes and ears" for the Survey's Program because the USGS cannot be everywhere, observing and monitoring all open waters for nonindigenous aquatic species.

The USGS does not actively solicit this information; a form is posted on our website to be completed with biologic, geographic and sender information. It is completely voluntary and sent to us only when the public has encountered a nonindigenous aquatic organism, usually through fishing or some other outdoor recreational activity and they chose to let us know.

We may not conduct or sponsor and a person is not required to respond to a collection of information unless it

displays a currently valid OMB control number.

II. Data

OMB Control Number: 1028-NEW.

Title: Nonindigenous Aquatic Species Sighting Reporting Form.

Type of Request: This is an existing collection in use without an OMB control number or expiration date.

Affected Public: State and local government employees and private individuals.

Respondent's Obligation: Voluntary.

Frequency of Collection: On occasion.

Estimated Annual Number of Respondents: 1,000.

Estimated Total Annual Responses: 1,000.

Estimated Time per Response: 10 minutes.

Estimated Total Annual Burden Hours: 167 hours.

III. Request for Comments

We invite comments concerning this ICR on: (a) Whether the proposed collection of information is necessary for the agency to perform its duties, including whether the information is useful; (b) the accuracy of the agency's estimate of the burden of the proposed collection of information; (c) ways to enhance the quality, usefulness, and clarity of the information to be collected; and (d) ways to minimize the burden on the respondents, including the use of automated collection techniques or other forms of information technology.

Comments that you submit in response to this notice are a matter of public record. Before including your address, phone number, e-mail address or other personal identifying information in your comment, you should be aware that your entire comment including your personal identifying information, may be made publically available at anytime. While you can ask OMB in your comment to withhold your personal identifying information from public review, we cannot guarantee that will be done.

Dated: August 31, 2010.

Anne Kinsinger,

Associate Director for Biology, U.S. Geological Survey.
