SUMMARY OF ASSISTANCE ACTION
Assistance to Firefighters Grant Program - Fire Prevention and Safety Program

INSTRUMENT: GRANT
AGREEMENT NUMBER: EMW-2007-FG-0060
GRANTEE: Annandale Fire Department
AMOUNT: \$100,000.00, Fire Operations and Firefighter Safety Program

BACKGROUND

The authority of this program for FY 2007 is derived from the Federal Fire Protection and Control Act of 1974 (15 U.S.C. 2201 et seq.), as amended by the Floyd D. Spence National Defense Authorization Act for FY 2007, Pub.L. 107-73. In fiscal year 2008, Congress appropriated a total of \$750,000,000 to carry out the activities of this Assistance to Firefighters Grant Program - Fire Prevention and Safety Grant. In October 2003, DHS met with the major fire service organizations to discuss implementation of the FY 2004 program. A decision was made that applicants may apply for grants in one program, however, the program may have multiple categories. The maximum amount an applicant may be awarded is \$750,000.00 in one program during any fiscal year. At this time, there is no predetermined funding level for the average size of grants DHS will make.

On July, 2004, Assistance to Firefighters Fire Operations and and Firefighter Safety Program; Program Guidance, was issued. The application was automated and available on line. The application was accessible from the DHS and USFA Internet websites from September 1, 2006 thru September 30, 2007. The automated application was designed with many built in "help screens" to assist the applicants through the application process. Paper applications were discouraged, but accepted. They were discouraging paper applications because of the inherent delays associated with processing a paper application. Additionally, paper applications didn't have the built in help that was available to the
