SUPPLEMENTARY INFORMATION: With the passage of the Flood Disaster Protection Act of 1973, an owner of a structure, with a federally backed mortgage, located in the 1-percent annual chance floodplain, was required to purchase Federal flood insurance. This was in response to the escalating damage caused by flooding and the unavailability of flood insurance from commercial insurance companies. As part of this effort, FEMA mapped the 1-percent annual chance floodplain in communities. However, due to scale limitations, individual structures that may be above the base flood cannot

always be shown as being out of the 1-percent annual chance floodplain. Title 44 CFR parts 65 and 70 provide for a mechanism to request a review and also indicate the requirements necessary to apply for a reassessment of this determination. FEMA will issue a Letter of Map Amendment (LOMA) to waive the Federal requirement for flood insurance when data is submitted to show that the property or structure is at or above the elevation of the base flood.
