

HIGHLIGHTS

- < 160,000 Equine on 34,000 Operations
- < Total Value of Equine Over \$580 Million
- < Quarter Horses Rank First in Inventory at 43,700, with Grade Horses Second at 22,300
- < Top Five Equine Counties are Lagrange, Elkhart, Allen, Hendricks, and Daviess
- < Quarter Horses Rank First in Total Value with over \$183 Million, Standardbred Horses Rank Second with over \$89 Million
- < Total Equine Related Assets Exceed \$4.6 Billion
- < Annual Equine Related Income \$92 Million
- < More Information Available at <http://www.nass.usda.gov/in/equine/equine.htm>

EQUINE INVENTORY, VALUE AND OPERATIONS, BY BREED INDIANA, JANUARY 1, 2002

Total = 34,000

EQUINE SURVEY PROCEDURES

Purpose

The 2002 Indiana Equine Survey was designed to determine equine inventory, economic contribution, and identify health related issues for the Indiana equine operations. Survey efforts were sponsored by the Indiana Horse Council (IHC), Indiana Horse Racing Commission, Indiana Livestock Development and Promotion Fund, Purdue University Veterinary School, and Purdue University Agricultural Statistics Department.

Reliability

The estimate from a sample survey will vary depending upon the units responding to the survey. The variation in the expansions are measured by the standard error of the

estimate, expressed as a percent of the estimate, also identified as the coefficient of variation. The resulting coefficient of variation for the total number of equine in Indiana (160,000), was 3.4%. Chances are 95 out of 100 that the interval created by the estimate plus or minus two standard errors will contain the true population value. Therefore, there is a 95% confidence, that the survey estimate of 160,000 head would reflect the true population, plus or minus 6.8% (10,880 head).
