

Trout Production

Released February 26, 2010, by the National Agricultural Statistics Service (NASS), Agricultural Statistics Board, U.S. Department of Agriculture. For information on *Trout Production* call Chris Hawthorn at (202) 720-0585, office hours 7:30 a.m. to 4:00 p.m. ET.

Trout Value of Sales Decreased 4 Percent from 2008

The total value of fish sales received by trout growers in the United States totaled 76.9 million dollars for 2009, a decrease of 4 percent from 2008. Idaho accounted for 47 percent of the total value of fish sold.

The number of **trout 12 inches and longer** sold during 2009 totaled 41.1 million fish, up 2 percent from the previous year. The average price per pound was \$1.40, up 2 cents from 2008. The value of sales for the 2009 marketing year was 68.6 million dollars, down 5 percent from 2008. For trout 12 inches or longer 62 percent were sold to processors and 19 percent were sold to fee and recreational fishing establishments.

The number of **6"- 12" trout** sold during 2009 totaled 5.54 million fish, an increase of 9 percent from 2008. The average price per pound was \$2.88 during 2009, down 10 cents from the 2008 price. The total value of sales was 6.57 million dollars during 2009, an 8 percent increase from the previous year. The major sales outlets for 6"- 12" trout were to fee and recreational fishing establishments accounting for 44 percent of total sales, followed by government with 15 percent.

The number of **1"- 6" trout** sold during 2009 totaled 7.93 million, a 12 percent decrease from the previous year. The average value per 1,000 fish was \$214 during 2009, up from \$159 in 2008. The total value of sales was 1.70 million dollars, up 18 percent from last year's total.

Distributed Trout

Trout distributed for restoration, conservation, and recreational purposes, primarily by State and Federal hatcheries, included 8.1 million 12" or longer fish, 63.6 million 6"- 12" fish, and 87.8 million 1"- 6" fish. The estimated value of fish distributed totaled 100 million dollars, down 2 percent from 2008.

Trout Losses

Total losses of all trout intended for sale were 19.6 million fish during 2009. Disease accounted for 90 percent of these losses, followed by predators, which totaled 6 percent.

**Trout: Number of Operations Selling and/or Distributing Fish and/or Eggs,
United States, 2008-2009¹**

US	Total	Selling Trout	Distributing Trout ²
	<i>Number</i>	<i>Number</i>	<i>Number</i>
2008 ³	1,017	463	584
2009	888	348	528

¹ State level number of operations will only be published every five years in conjunction with the Census of Agriculture.

² Trout distributed for restoration, conservation, or recreational purposes.

³ Revised.

**Trout: Value of Fish Sold and Distributed, by State (excluding eggs),
and United States (excluding and including eggs), 2008-2009**

* Not published to avoid disclosure of individual operations.

¹ Revised.

² Other States include State estimates not shown and States suppressed due to disclosure.

Reliability of Trout Production Estimates

Survey Procedures: Data for trout production are collected from all known producers in the sixteen published states and a sample of producers from the remaining states. Individual NASS field offices maintain a list of all known trout producers and use known sources of producers to update their lists. Operators are mailed a questionnaire as close as possible to January 1 and given adequate time to respond by mail. Those that do not respond by mail are telephoned or possibly enumerated in person during the middle of January.

Estimation Procedures: Sound statistical methodology is employed to derive the estimates from reported data. All data are analyzed for unusual values. Data from each operation are compared to their own past operating profile and to trends from similar operations. Data for missing operations were estimated based on similar operations or historical data. NASS field offices prepare these estimates by using a combination of survey indications and historic trends. Individual State estimates are reviewed by the Agricultural Statistics Board for reasonableness.

Revision policy: Estimates for the previous year are subject to revision when current estimates are made. Revisions are the result of late or corrected data.

Reliability: In the sixteen published states, Trout production estimates are based on a census of all known active producers and therefore, have no sampling variability. However, since all operations in the other states category are not included in the sample, survey estimates are subject to sampling variability. Survey results are also subject to errors such as omissions, duplication, and mistakes in reporting, recording, and processing the data. While these errors cannot be measured directly, they are minimized through strict quality controls in the data collection process and a careful review of all reported data for consistency and reasonableness.

Terms and Definitions Used for Trout Production Estimates

12" or Longer Fish: Grown commercially for food, usually weighing from three-fourths to one and one-half pounds.

6"- 12" Fish: Usually stockers that weigh less than three-fourths of a pound. They may be sold as foodsize fish.

Fingerlings: Fish usually from 1 to 6 inches long.

Live Haulers: Person who buys live fish on the farm and functions as a middleman.

Chemicals: Includes losses from pesticides or herbicide poisoning.

Disease: Includes losses from both parasitic and bacterial caused sickness.

Drought: Includes losses from lack of water causing oxygen depletion.

Floods: Includes losses from too much water washing the fish away.

Predators: Includes losses from mink, otters, birds, and other animals.

Theft/Vandalism: The unauthorized removal of fish and/or the destruction of property causing a loss of fish by intentional acts by persons known or unknown.

The U.S. Department of Agriculture (USDA) prohibits discrimination in all its programs and activities on the basis of race, color, national origin, age, disability, and where applicable, sex, marital status, familial status, parental status, religion, sexual orientation, genetic information, political beliefs, reprisal, or because all or a part of an individual's income is derived from any public assistance program. (Not all prohibited bases apply to all programs.) Persons with disabilities who require alternative means for communication of program information (Braille, large print, audiotape, etc.) should contact USDA's TARGET Center at (202) 720-2600 (voice and TDD).

To file a complaint of discrimination, write to USDA, Director, Office of Civil Rights, 1400 Independence Avenue, S.W., Washington, D.C. 20250-9410, or call (800) 795-3272 (voice) or (202) 720-6382 (TDD). USDA is an equal opportunity provider and employer.
