February 2, 2021

Dear Red Snapper Fisherman:

We want to thank you for your participation in the socio-economic survey of the Gulf of Mexico red snapper IFQ program. The information provided will be used to conduct economic analyses to assess the performance of the IFQ program. We anticipate providing the salient results of this work to the Gulf of Mexico Fishery Management Council for their 5-year review of the program early in 2012.

Once again, thank you very much for your cooperation.

Sincerely,

Walter R. Keithly, Jr.
Resource Economist
