Welcome to the National Public Health Performance Standards Program (NPHPSP) data reporting page. This site allows users of the NPHPSP instruments to request user IDs, input data from their current performance assessment, and retrieve reports from both current and past assessments.

If you are new to the NPHPSP or are considering using the instrument for your public health system or board of health please visit the [Centers for Disease Control and Prevention \(CDC\) NPHPSP website](#) for more information or use the contact links at left.

To enter or access performance data, you must have a User ID and password to log into this system. When registering for a new User ID, select "Local" as your User Type if you are completing the Local Public Health System Instrument, select "State" if you are completing the State Public Health System Instrument, and select "Governance" if you are completing the Local Public Health Governance Instrument. Every single jurisdiction or Board is assigned to a unique User ID.

If you are submitting data on behalf of a jurisdiction or Board that completed the NPHPSP assessment, please fill out the associated name of the jurisdiction or Board, mailing address, and contact information in the new User ID request form below. Need to register for bulk or multiple User IDs? Contact the NPHPSP Data System Support at (202) 218-4411 or nphpsp-support@phf.org for assistance.

Please note that this website functions best using the latest version of Internet Explorer.

Finding Tools and Resources for Performance Improvement After you have your reports and data, what are your next steps? The resources listed below can help keep your momentum going! You can turn to them immediately, or after you have selected a specific EPHS, standard, or other areas for improvement. You can also mine these resources before you decide on your final priorities.

Start finding the information you need to improve! Search the NPHPSP Online Resource Center for State, Local, and Governance resources. This powerful database lets you search by model standard, essential public health service, and keyword.

National Public Health Performance Standards Program
online resource center

In addition to the NPHPSP Online Resource Center's searchable database, here are some resources to get you started:

1. Check out the [Post-Assessment Toolkit](#) on the CDC web site, complete with sample follow-up letters, improvement plans, priority setting guides, and other links.
2. See what the User Guide says about "[After We Complete the Assessment, What Next?](#)"
 - Organize Participation for Performance Improvement
 - Prioritize Areas for Action
 - Explore "Root Causes" of Performance
 - Develop and Implement Improvement Plans
 - Regularly Monitor and Report Progress
3. Get to action and outcomes using NACCHO's [Mobilizing for Action through Planning and Partnership \(MAPP\)](#) tool. MAPP provides a community-based process for using NPHPSP assessment results in identifying areas for improvement and action planning.
4. Join the NPHPSP "User Calls," held the 3rd Tuesday of every month at 2 PM Eastern. Hear what others are doing, get inspired, and ask for advice. To receive notices of the calls, contact the [National Network of Public Health Institutes](#). Registration is free.

NPHPSP Reporting System – Frequently Asked Questions Guidance

NPHPSP
National Public Health Performance Standards Program

**Version 2 Data Entry and Report Generation
Frequently Asked Questions**

The Frequently Asked Questions (FAQs) are separated into four sections: User ID and Password, Individual versus Bulk ID request, Entering and Submitting Data, and Report Generation.

I. User ID and Password

1. How do I get a User ID?

Visit the NPHPSP data reporting home page at www.nphpsp-results.org. On this website, you can register for a new User ID, log in to enter data and download a report.

2. What information do I need to register for a new User ID?

The following fields are required: name of jurisdiction or board, work address, city, state, zip code, tribal organization (yes or no), user type (local, state or governance), previous User ID (yes or no), main contact for the NPHPSP assessment, and password (minimum of 6 characters). We recommend choosing a non-personal password that isn't linked to personal accounts.

3. Do I need to enter information for an alternate contact?

No. The inclusion of an alternate contact is optional, but is encouraged and may be needed under certain circumstances. For example, many sites may be interested in including both the health official (or other senior management representative) and a staff person who might be responsible for data entry. Alternatively, an alternate contact may be needed if data entry is contracted out to a third party or one person is coordinating data entry for multiple jurisdictions. Both the main and alternate contacts receive an email with the User ID and password.

4. I completed the Version 1 assessment. Can I use my last User ID and password to complete the Version 2 assessment?

No, please register for a new User ID. On the User ID registration form, you have the option of providing your Version 1 User ID, which will facilitate linking Version 1 and Version 2 reports once that feature is available.

5. I completed the Version 2 assessment two years ago and would like to complete it again. Should I register for a new User ID?

No, you can complete more than one assessment associated with the same User ID. After logging in to the NPHPSP data reporting home page, click on the "Report Center" link in the top navigation bar. On the Report Center page, click on the "Reference Manager" link in the left navigation bar. This will migrate your reports and data to the Report Center History page and clear out the Report Center History Page. From the Report Center History Page, accessible through the Report Center page, you can view active and closed instruments reports and data.

NPHPSP Reporting System – Welcome User Page after Secure Log-in

The screenshot shows the NPHPSP Reporting System interface. At the top left is the NPHPSP logo (National Public Health Performance Standards Program). In the top right corner, it says "You are logged in as DC0001 | LOGOUT". A left-hand navigation menu includes: Home Page, Questionnaires (Performance Assessment, Respondent Information Form, Priority of Model Standards, Agency Contribution), Report Center, Partner Links (APHA, ASTHO, CDC, IACCHO, NALBOH, NNPHI, PHF), Next Steps, Help, FAQs, and Contact Us. The main content area is titled "Welcome to the NPHPSP Survey and Reporting Center" and contains a list of instruments to complete: Performance Assessment, Respondent Information Form, Priority of Model Standards [optional], and Agency Contribution [optional]. Below this is a section for "The Report Center" which provides access to reports and data. At the bottom, there is a "Send Feedback" link and an email address: nphpsp-support@phf.org. The browser's address bar at the bottom shows "Internet" and a zoom level of "100%".

Welcome to the NPHPSP Survey and Reporting Center

Use the menu on the left to complete the following instruments:

- **Performance Assessment** – the updated "Version 2" of the NPHPSP assessment instrument for public health systems.
- **Respondent Information Form** – a short survey that all sites must complete to provide basic demographic information about the jurisdiction, public health agency, participants in the assessment process and other basic data.
- **Priority of Model Standards [optional]** – a supplemental and optional questionnaire that asks about the "priority" of addressing each model standard. Those that complete these questions get an additional component to their reports, which rank their scores in relation to how they have prioritized standards. This new component is intended to strengthen and better catalyze the performance improvement activities that should occur as a result of the assessment process. Those that complete these questions get an additional component to their reports.
- **Agency Contribution [optional]** – a supplemental and optional questionnaire that asks about the public health agency contribution to each model standard. Those that complete these questions get an additional component to their reports.

The Report Center:

The Report Center gives you access to your partial/complete reports based on the data entered in the questionnaires. It also gives you access for you to download raw data and have access to previous years' reports.

Report Center

Your Report

You must complete and submit the Performance Assessment Questionnaire and the Respondent Information Form in order to have access to a full report. Once data is submitted, you will not be able to change your responses. If desired, you may generate a partial report based on performance assessment data entered to date. All partial reports will be marked as "Incomplete." Data from optional modules will be included in Final Reports only. If you choose to complete an optional module at a later date, you may re-generate your report with the optional section.

The "name to use on Report" text box next to the generate report button contains the name of your jurisdiction (health department) or Board that you submitted with your User ID registration or that you modified in the Respondent Information Form. When you generate the report, this text will appear on your report cover and on the header of each page of the report. You may modify the name field by entering in a different name into the text box below.

Performance Assessment Questionnaire Submitted
Respondent Information Form Submitted
Priority of Model Standards Questionnaire Submitted
Agency Contribution Questionnaire Submitted

Name to use on Report
District of Columbia

Note:The report may take several seconds to download, depending on your internet connection speed.

Close Instrument
Select "Close Instrument" when you are ready to start a new instrument associated with the same jurisdiction or board. If you would like to submit data for a different jurisdiction or board, you must register for a new User ID. Once an instrument is closed, you will not be able to modify any questionnaire forms included with the previous instrument that haven't already been submitted. You can view closed reports and raw data in the "Report Center History" page.

Your Report

You must complete and submit the Performance Assessment Questionnaire and the Respondent Information Form in order to have access to a full report. Once data is submitted, you will not be able to change your responses. If desired, you may generate a partial report based on performance assessment data entered to date. All partial reports will be marked as "Incomplete." Data from optional modules will be included in Final Reports only. If you choose to complete an optional module at a later date, you may re-generate your report with the optional section.

The "name to use on Report" text box next to the generate report button contains the name of your jurisdiction (health department) or Board that you submitted with your User ID registration or that you modified in the Respondent Information Form. When you generate the report, this text will appear on your report cover and on the header of each page of the report. You may modify the name field by entering in a different name into the text box below.

NPHPSP

Figure 2: Rank ordered performance scores for each Essential Service

Essential Service	Performance Score (%)
8. Assure Workforce	34%
10. Research/Innovations	35%
9. Evaluate Services	36%
1. Monitor Health Status	43%
4. Mobilize Partnerships	50%
3. Educate/Empower	51%
2. Diagnose/Investigate	52%
7. Link to Health Services	52%
6. Enforce Laws	54%
5. Develop Policies/Plans	61%

Figure 3: Rank ordered performance scores for each Essential Service, by level of activity

Legend: No Activity (white), Minimal (grey), Moderate (yellow), Significant (dark blue), Optimal (orange)

Essential Service	Performance Score (%)
8. Assure Workforce	34%
10. Research/Innovations	35%
9. Evaluate Services	36%
1. Monitor Health Status	43%
4. Mobilize Partnerships	50%
3. Educate/Empower	51%
2. Diagnose/Investigate	52%
7. Link to Health Services	52%
6. Enforce Laws	54%
5. Develop Policies/Plans	61%

Figure 2: (above) displays each composite score from low to high, allowing easy identification of service domains where performance is relatively strong or weak.

Figure 3: (above) provides a composite picture of the previous two graphs. The range lines show the range of responses within an Essential Service. The color coded bars make it easier to identify which of the Essential Services fall in the five categories of performance activity.

Table 2: Summary of performance scores by Essential Public Health Service (EPHS) and model standard

Essential Public Health Service	Score
EPHS 1. Monitor Health Status To Identify Community Health Problems	43
1.1 Planning and Implementation	82
1.1.1 Surveillance and monitoring programs	66
1.1.2 Health data products accessible to data users	71
1.1.3 State health profile	100
1.1.4 Disease reporting system	81
1.1.5 Protection of personal health information	92
1.2 State-Local Relationships	22
1.2.1 Assistance in interpretation and use of health data	28
1.2.2 Uniform set of timely community-level health data	17
1.2.3 Assistance with local information and monitoring systems	21
1.3 Performance Management and Quality Improvement	25
1.3.1 Review effectiveness in monitoring efforts	25
1.3.2 Active performance management	25
1.4 Public Health Capacity and Resources	42
1.4.1 Commit financial resources	25
1.4.2 Coordinate system-wide organizational efforts	21
1.4.3 Workforce expertise	81
EPHS 2. Diagnose And Investigate Health Problems and Health Hazards	52
2.1 Planning and Implementation	56
2.1.1 Broad scope of surveillance programs	56
2.1.2 Enhanced surveillance capability	55
2.1.3 Statewide public health laboratory system	46
2.1.4 Laboratory analysis capabilities	56
2.1.5 Investigations of health problems	65
2.2 State-Local Relationships	52
2.2.1 Assistance with epidemiologic analysis	44
2.2.2 Assistance in using laboratory services	25
2.2.3 Guidance in handling public health problems and threats	63
2.2.4 Capability to deploy response teams to local areas, when needed	75
2.3 Performance Management and Quality Improvement	55
2.3.1 Review surveillance and investigation procedures	60
2.3.2 Active performance management	50
2.4 Public Health Capacity and Resources	46
2.4.1 Commit financial resources	25
2.4.2 Coordinate system-wide organizational efforts	50
2.4.3 Workforce expertise	63

III. Overall, how well is the system achieving optimal activity levels?

Figure 10: Percentage of Essential Services scored in each level of activity

Activity Level	Percentage
Significant	50%
Moderate	50%
Optimal	0%
No activity	0%
Minimal	0%

Figure 10: displays the percentage of the system's Essential Services scores that fall within the five activity categories. This chart provides the site with a high level snapshot of the information found in Figure 3.

Figure 11: Percentage of model standards scored in each level of activity

Activity Level	Percentage
Significant	33%
Moderate	48%
Optimal	8%
No activity	0%
Minimal	13%

Figure 11: displays the percentage of the system's Model Standard scores that fall within the five activity categories.

Figure 12: Percentage of all questions scored in each level of activity

Activity Level	Percentage
Significant	26%
Moderate	36%
Optimal	5%
No activity	4%
Minimal	29%

Figure 12: displays the percentage of all scored questions that fall within the five activity categories. This breakdown provides a closer snapshot of the system's performance, showing variation that may be masked by the scores in Figures 10 and 11.

Figures 13 and 14 (below) display Essential Services and model standards data within the following four categories using adjusted priority rating data:

Quadrant I (High Priority/Low Performance) - These important activities may need increased attention.
Quadrant II (High Priority/High Performance) - These activities are being done well, and it is important to maintain efforts.
Quadrant III (Low Priority/High Performance) - These activities are being done well, but the system can shift or reduce some resources or attention to focus on higher priority activities.
Quadrant IV (Low Priority/Low Performance) - These activities could be improved, but are of low priority. They may need little or no attention at this time.

The priority data are calculated based on the percentage standard deviation from the mean. Performance scores above the median are displayed in the "high" performance quadrants. All other levels are displayed in the "low" performance quadrants. Essential Service data are calculated as a mean of model standard ratings within each Essential Service. In cases where performance scores and priority ratings are identical or very close, the numbers in these figures may overlap. To distinguish any overlapping numbers, please refer to the raw data or Table 4.

Figure 13: Scatter plot of Essential Service scores and priority ratings

Quadrant	Composite Performance Score (%)	Priority	Count
I (High Priority/Low Performance)	~10	High	1
II (High Priority/High Performance)	~50	High	4
III (Low Priority/High Performance)	~30	Low	9
III (Low Priority/High Performance)	~50	Low	76
IV (Low Priority/Low Performance)	~30	Lowest	80
IV (Low Priority/Low Performance)	~50	Lowest	32
IV (Low Priority/Low Performance)	~80	Lowest	5

I (High Priority/Low Performance) - may need increased attention.
 II (High Priority/High Performance) - important to maintain efforts.
 III (Low Priority/High Performance) - potential areas to reduce efforts.
 IV (Low Priority/Low Performance) - may need little or no attention.
