Data Collection: Recruitment Script- SUNY**

**Recruitment Script**

Hello, my name is <STAFF NAME>. We are contacting men who receive services at barbershops in Central Brooklyn and Flatbush to see if they are eligible and interested in participating in a research study conducted by Arthur Ashe Institute of Urban Health and SUNY Downstate Medical Center. This study is for African American/Black and will give us information that we will need to help design programs that will help decrease HIV risks for heterosexual African American and Black men in Brooklyn. Have you already met with someone from our research project? [Wait for response]. [If interested, staff will provide potential participant with a Study Contact Card and ask that they call the office to complete screening]
