Script: "Hi. I work with STRAIGHT TALK, a research program focused on African American men who have sex only with women and their health, relationships, and sexual behavior and HIV prevention. Can I ask you a few questions? It will only take a minute or two. Some of the questions are personal, including questions about sexual activity. Your involvement is voluntary, your responses will be kept private, and you can refuse to answer a question or stop at any time. The information you give us will be combined with everybody else's information so that collectively – not individually – we can describe the group involved in the study. Are you interested? If you are eligible and decide to participate, you will have the opportunity to receive \$25 for an initial visit, \$25 each group session and \$40 for a follow-up survey, as a token of appreciation. In addition, you will receive a \$4 MetroCard for each visit to the site."

[Any answer other than none is exclusionary]

For those who are eligible on full screening:

“You are eligible to participate in the study. Over the next few months, we will be conducting a study about African American men’s health, relationships, and sexual behavior and HIV prevention. There will be an initial visit with a risk assessment. You would then be schedule for the first of 4 group sessions. There would be one final individual visit after the group sessions. You can receive a token of appreciation of \$25 for the initial visit, \$25 for each group session and \$40 for the follow-up visit. In addition, you can receive a \$4 MetroCard for each visit to the site.

If you arrive at the first visit too late to complete the process in the time allotted, you will not receive compensation. If possible, you will be rescheduled for another time.

If not enough people show up for the first group session, you will receive a token of appreciation of \$15 in cash and a two-way MetroCard and you will be rescheduled. If too many people show up for the first group session, you may also receive \$15 in cash and a two-way MetroCard and, if possible be rescheduled.

For those who are ineligible on full screening:

“I’m sorry but you are not eligible to participate in this study at this time. There are many reasons why people are not eligible to be in the study, reasons that were decided earlier by the researchers. We appreciate your interest in

this study and willingness to consider helping to improve HIV prevention programs in our community. Thank you.”
