Nature of Research Activity:

"Questionnaire Cognitive Interviewing and Pretesting": We propose to conduct intensive (cognitive) interviews to pretest survey questions intended for the 2010 Tobacco Use Supplement to the Current Population Survey (TUS-CPS). The survey will be based on the 2006 questionnaire (attached), as modified based on the results of the currently proposed cognitive testing. Subject identifiers (name, telephone number) will be and will be destroyed immediately after the interview. Note that further cognitive testing projects of a similar nature, involving other CDC data collection systems, are also planned. For these projects, we will submit additional
