Subject: Non-substantive Change Request for **Generic, “Questionnaire Cognitive Interviewing and Pretesting (NCI)”**
(OMB No. 0925-0589, Expiration Date 5/31/11)

I am requesting a non-substantive, non-material change to the total burden that is reported in ICRAS/ROCIS for this generic information collection. This would be to correct an administrative error that has occurred; it is not a request to increase or decrease the burden hours or respondents.

The original burden, based on the 2008 OMB-approved Supporting Statement A, p. 32 requested an *annual* participant burden of 600 hours with 600 respondents.

The burden reported in the ICRAS/ROCIS is a total of 600 hours and respondents. This number should actually be 1800 hours and respondents, since this information collection was approved for three years.
