

Attachment #1: Resource Services and Products

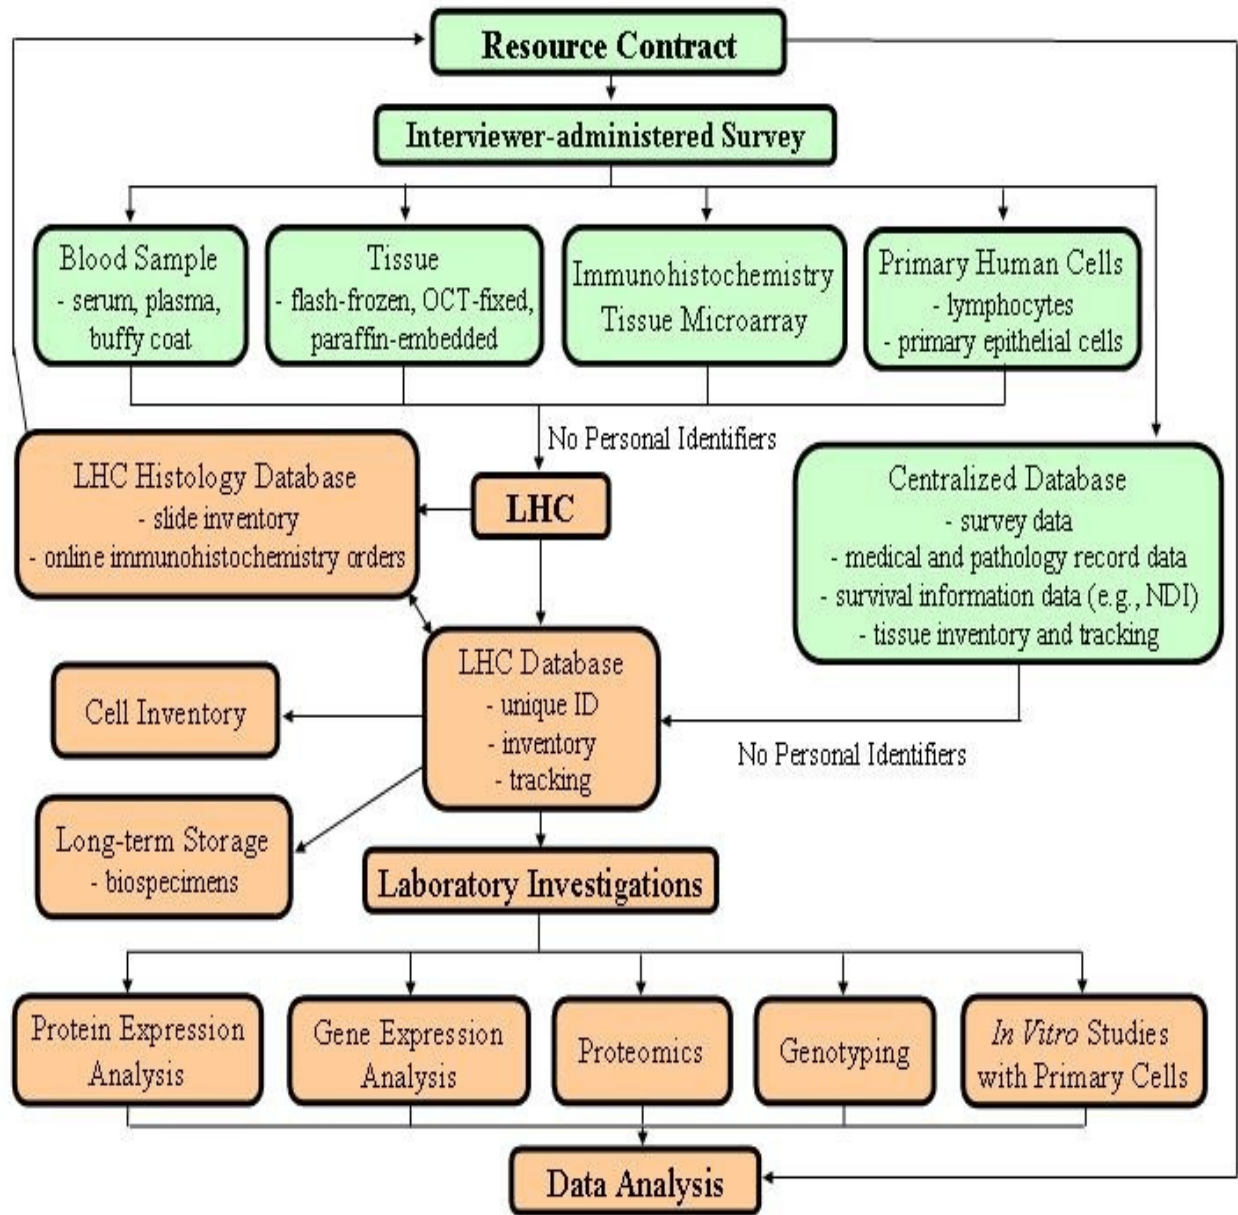

Figure 1. A flow chart demonstration of the major services of the LHC participant accrual and tissue collection resource contract (NO2-RC-57700: 05/30/2005-05/29/2010). Specimens (tissues, cells, serum, plasma, stained/unstained regular histology and tissue array slides) are delivered to the laboratory, where they receive unique LHC identification numbers and

barcodes for immediate use or long-term storage and retrieval at the LHC-FCRDC Tissue Repository.
