

Notice of Denial of Medicare Prescription Drug Coverage (CMS-10146)

The Notice of Denial of Medicare Prescription Drug Coverage (CMS-10146) Spanish version.. This translation does not alter the purpose, meaning, or use of the Notice of Denial of Medicare Prescription Drug Coverage.

Note that the Part D denial notice is translated into Spanish, but the instructions are not. It is unnecessary to translate the instructions, because the instructions are not provided to the Medicare beneficiary (Part D plan enrollee). The Part D plan enrollee will receive the denial notice if the plan denies coverage for a prescription drug, but the enrollee will not receive the instructions. Again, the instructions are for use by the Part D plan in completing the denial notice sent to the enrollee if the plan denies coverage for a drug.
