SPECIFIC QUESTIONS

1. Describe the project and its purpose:

Form I-864 will be used by the USCIS to determine whether the sponsor has the ability to support the sponsored alien under section 213A of the Immigration and Nationality Act. This form serves the purpose of standardizing the evaluations of the sponsor's ability to support the sponsored alien and ensures that basic information required to assess eligibility is provided by petitioners.

Form I-864A is a contract between the sponsor and the sponsor's household members. It is only required if the sponsor used income of his or her household members to reach the required 125 percent of the Federal poverty guideline. The contract holds these household members jointly and severally liable for the support of the sponsored immigrant. The information collection required on Form I-864A is necessary for public benefit agencies to enforce the Affidavit of Support in the event the sponsor used income of his or her household members to reach the required income level and the public benefit agencies are requesting reimbursement from the sponsor.

Form I-864EZ will be used by the USCIS in exactly the same way as Form I-864, however, the USCIS will collect less information from the sponsors as less information will be needed from those who qualify in order to make a thorough adjudication.

Form I-864W is a form that will be used by the USCIS to determine whether the intending immigrant meets the criteria for exemption of the section 213A requirements. This form collects the immigrant's basic information, such as name and address, the reason for the exemption, and accompanying documentation in support of the immigrant's claim that they are not subject to section 213A.
