Instructions:

Line 1: For each month, enter the number of individuals in subsidized employment that equate to the dollars you reported on the OFA-100 in subsidized employment for that month (TANF, MOE, and/or TANF Emergency Fund dollars). For example, if for the first quarter of FY 2010 you reported subsidized employment expenditures of \$90,000 because in each month of that quarter you spent \$30,000, you should report the number of subsidized jobs the \$30,000 funded in October, November, and December of 2009.

Line 2: Enter the total number of individuals placed in subsidized jobs since the start of the program.

The definition of subsidized employment used for this collection is the same as the definition for the TANF program in general, given in 45 CFR 261.2(c) and (d).

(c) Subsidized private sector employment means employment in the private sector for which the employer receives a subsidy from TANF or other public funds to offset some or all of the wages and costs of employing an individual.

(d) Subsidized public sector employment means employment in the public sector for which the employer receives a subsidy from TANF or other public funds to offset some or all of the wages and costs of employing an individual.

FY 2011 data collection is included in anticipation of an extension of the TANF Emergency Fund.
