Questionnaire Script

BLS has been asked to produce measures of employment in U.S. industries that produce green goods and services. Before we can do this, we need to better understand how businesses track information regarding the variety of products they offer. The questions I will ask you today will help BLS collect the most accurate and reliable data possible.

Before we begin, let me assure you that the purpose of this call is strictly for informational and statistical purposes. The information you provide will help BLS better understand business record-keeping and will aid in designing a new survey. Your participation is completely voluntary and you can decline to answer any question at any time. Information related to this study is confidential and will not be released to the public in any way that would allow identification of individuals or establishments except as prescribed under the conditions of the Privacy Act Notice. This interview is approved by the Office of Management and Budget, number 1220-0181, which expires on September 30, 2010.
