

## **Narrative of Changes**

*The purpose of the Narrative of Changes is to clearly indicate revisions to a collection since the previous approval*

Collection Title: Vapor Control Systems for Facilities and Tank Vessels

OMB Control No.: 1625-0060

Current Expiration Date: 11/30/2011

Collection Instruments: Instructions

The change in burden hours is an ADJUSTMENT. There is no proposed change to the reporting or recordkeeping requirements of this collection. The reporting and recordkeeping requirements, and the methodology for calculating burden, remain unchanged.

The following listed below are changes to the collection:

- Increase in burden (respondents/responses/burden hours) is due to a change in the facility and vessel population. While the number of facilities has declined (65 to 52) from the last ICR, the number of vessels has greatly increased (310 to 607). We do not have an explanation for this change.
- Updates are provided for cost burden associated with this collection of information.
- USCG has created printable instructions for this collection of information.
