Summary: The Marine Safety Center's program for electronic submission of vessel drawings and supporting calculations

Supporting Documents ▲ ▼

[MSC Bulletin 2002-07 - 769 KB](#)

The EC program is running smoothly and is building in both awareness and volume. The program has been up and running for some time now, and we are in the progress of making additional improvements. As always, we welcome your comments. Also, if you or your company have any file security concerns that you would like to discuss, please contact the EC Coordinator at MSC@uscg.mil; there are several options that are available.

See Supporting Documents to the right for acceptable formats, file size limits, and required information.
