- Other: <Seeking OMB clearance for FEMA's Buffer Zone Protection Grant Program

* The E-Government Act of 2002 defines these terms by reference to the definition sections of Titles 40 and 44 of the United States Code. The following is a summary of those definitions:

- “Information Technology” means any equipment or interconnected system or subsystem of equipment, used in the automatic acquisition, storage, manipulation, management, movement, control, display, switching, interchange, transmission, or reception of data or information. See 40 U.S.C. § 11101(6).

- “Information System” means a discrete set of information resources organized for the collection, processing, maintenance, use, sharing, dissemination, or disposition of information. See: 44. U.S.C. § 3502(8).

Note, for purposes of this form, there is no distinction made between national security systems or technologies/systems managed by contractors. All technologies/systems should be initially reviewed for potential privacy impact.

SPECIFIC QUESTIONS

1. Describe the project and its purpose:

The Transit Security Grant Program (TSGP) is a FEMA grant program that focuses on transportation infrastructure protection activities. This grant program is part of a comprehensive set of measures authorized by Congress and implemented by the Administration to help strengthen the nation's critical infrastructure against risks associated with potential terrorist attacks. The TSGP is an important component of the Department's effort to enhance the security of the Nation's critical infrastructure. The program provides funds to owners and operators of transit systems (which include intra-city bus, commuter bus, and all forms of passenger rail) to protect critical surface transportation infrastructure and the traveling public from acts of terrorism, major disasters, and other emergencies.

2. Status of Project:

This is a new development effort.

This is an existing project.

Date first developed: October 1, 2005

Date last updated: August 1, 2009

The program priorities and pool of eligible applicants, among other items such as allowable costs or cost share requirements, can differ by grant year.

3. Could the project relate in any way to an individual?¹

No. Please skip ahead to the next question.

Yes. Please provide a general description, below.

The type of information that may be collected and/or retained are the names of organizational Point(s) of Contact, organizational address, organizational email addresses, and additional contact information. No Personally Identifiable Information (PII) is collected outside of the organizational information.

4. Do you collect, process, or retain information on: (Please check all that apply)

¹ Projects can relate to individuals in a number of ways. For example, a project may include a camera for the purpose of watching a physical location. Individuals may walk past the camera and images of those individuals may be recorded. Projects could also relate to individuals in more subtle ways. For example, a project that is focused on detecting radioactivity levels may be sensitive enough to detect whether an individual received chemotherapy.

5. Do you use or collect Social Security Numbers (SSNs)? (This includes truncated SSNs)

No.

Yes. Why does the program collect SSNs? Provide the function of the SSN and the legal authority to do so:

<Please provide the function of the SSN and the legal authority to do so.>

6. What information about individuals could be collected, generated or retained?

TSP awards are made by organization, not by an individual. The only eligible applicants for TSP funds are those who have a current security plan subject to Title 49 CFR 172.800 Transport Tier I Commodities as defined by TSA and consist of 11 or more tractors (Tier I) or consist of 10 or less tractors (Tier II). TSP has five standard federal grant forms: Application for Federal Assistance SF-424, Disclosure of Lobbying Activities, Budget Information - Non-Construction Programs SF424A-V10, Assurances - Non-Construction Programs SF424B, and Financial Status Report SF269A. However, each preparedness grant program varies and has a different set of requirements. Consequently, FEMA collects and/or retains applicant information including:

- Type of Submission;
- Type of Application;
- Date Received;
- Applicant Identifier;
- Federal Entity Identifier;
- Federal Award Identifier;
- Date Received by State;
- State Application Identifier;
- Names of organizational Point(s) of Contact;
- Employer Identification Number (EIN) and Dun & Bradstreet (DUNS) numbers;
- Organizational address;
- Organizational email addresses;
- Department Name;
- Division Name;

- Organizational telephone and fax number;
- Organizational Investment Justification;
- Name of Federal Agency;
- Catalog of Federal Domestic Assistance (CFDA) Number;
- CFDA Title and;
- Funding Opportunity Number;
- Competition Identification Number; and
- Areas Affected by Project

7. If this project is a technology/system, does it relate solely to infrastructure? [For example, is the system a Local Area Network (LAN) or Wide Area Network (WAN)]?

No. Please continue to the next question.

Yes. Is there a log kept of communication traffic?

No. Please continue to the next question.

Yes. What type of data is recorded in the log? (Please choose all that apply.)

Header

Payload Please describe the data that is logged.

<Please list the data elements in the log.>

8. Can the system be accessed remotely?

No.

Yes. When remote access is allowed, is the access accomplished by a virtual private network (VPN)?

No. Applicants provide application data upon submitting their proposals to FEMA via grants.gov, which is accessible via Internet.

Yes.

9. **Is Personally Identifiable Information² physically transported outside of the LAN? (This can include mobile devices, flash drives, laptops, etc.)**

No.

Yes. PII, as it relates to an individual's employment by an eligible grant entity, is transported outside the LAN (via Internet) and transmitted to grants.gov. FEMA accesses grants.gov to download application data, which includes PII, such as an organization's Point of Contact (POC) name, organizational POC's email address, and organizational POC's telephone number .

10. **Does the system connect, receive, or share Personally Identifiable Information with any other DHS systems³?**

No

Yes. Please list:

11. **Are there regular (ie. periodic, recurring, etc.) data extractions from the system?**

No.

Yes. Are these extractions included as part of the Certification and Accreditation⁴?

Yes.

No.

12. **Is there a Certification & Accreditation record within OCIO's FISMA tracking system?**

Unknown.

No.

Yes. Please indicate the determinations for each of the following:

Confidentiality: Low Moderate High Undefined

² Personally Identifiable Information is information that can identify a person. This includes; name, address, phone number, social security number, as well as health information or a physical description.

³ PII may be shared, received, or connected to other DHS systems directly, automatically, or by manual processes. Often, these systems are listed as "interconnected systems" in TAFISMA.

⁴ This could include the Standard Operation Procedures (SOP) or a Memorandum of Understanding (MOU)
