## Appendix A. Respondents and Other Assumption

Description	Number	Notes
Percent CAFOs in AK, ID, MA, NH, NM, and OK	3.4%	ICR: NPDES and ELG Regulatory Revisions for Concentrated Animal Feeding
Percent CAFOs covered by General Permits	70.0%	Operations (Final Rule) OMB Control Number: 2040-0250. EPA ICR: 1989.06.
Annual CAFO inspection rate	20.0%	
Percent hearings for individual permits	12.0%	
%CAFOs where the permit authority require the NMP to be submitted w/		
the application?	71.51%	
%CAFOs in authorized states where the permit authority does		
comprehensive technical review	42.40%	
		45% of facilities would modify their permit once per permit cycle (5 years). 0-
Percent of NMP that would change enough to trigger review	11.00%	10% would modify their permit twice. (A. Wiedeman, EPA)
		ICR: NPDES and ELG Regulatory Revisions for Concentrated Animal Feeding
Reduction in permit modifications due to the availability of the narrative rate		Operations (Final Rule) OMB Control Number: 2040-0250. EPA ICR: 1989.06.
approach	50%	
		EPA retains authority for NPDES discharge permits for agricultural facilities in
		Oklahoma; thus, only 44 States are authorized to issue permits to CAFOs. EPA
Authorized States for CAFOs	44	is not aware of any CAFOs in the U.S. Virgin Islands.
Authorized States for CAAP		Information Collection Request: Concentrated Aquatic Animal Production
Total Number of CAAP Permittees	245	Effluent Guidelines. ICR No. 2087.03, OMB No. 2040-0258. September 2007
Flow Through and Recirculating Commercial Facilities	59	
Flow Through and Recirculating Non-Commercial Facilities	122	
Net Pen Facilities	19	
		Information Collection Request for National Pollutant Discharge Elimination
		System (NPDES) Program (Renewal) OMB Control No. 2040-0004, EPA ICR
Total Number of CAAP Permittees in non-authorized states	5	No. 0229.19
