

NOx Budget Trading Program

Instructions for Common Stack Allowance Deduction Form (OPTIONAL)

The Common Stack Allowance Deduction Form may be used to indicate the number of allowances to be deducted for compliance from each unit that shares a common stack or pipe. If you choose to use this form, it must be submitted with the Compliance Certification Report by November 30 of the calendar year that includes the control period.

- Step 1** Enter the calendar year that includes the control period for which you are certifying compliance, Plant Name, State, and ORIS Code.
- Step 2** When two or more NOx Budget units share a common emission stack and have emissions that are not individually monitored, you have the option of identifying the fraction of total allowances to be deducted from each unit's NOx Allowance Tracking System (NATS) Account, unless the units are using an approved apportionment method under 40 CFR Part 75. (Where an approved special apportionment method is used, the deduction from each unit is already established.) When using this option, enter the NATS Account Number, Fraction of Total Allowances to be Deducted, and the Common Stack Identification Number for each unit sharing a common stack. If you do not indicate otherwise, an equal percentage of allowances will be deducted from each unit's account.

EXAMPLE 1: Four units emit through a common stack (ID No. CS10). The total annual emissions from stack CS10 = 10,000 tons. Leaving Step 2 blank results in the deduction of 2500 allowances from each of the four units.

EXAMPLE 2: The same four units emit the same annual emissions as in Example 1. The designated representative wants 60% of the allowances deducted from unit 1, 40% from unit 4, and 0 from units 2 and 3. The step is completed as illustrated:

NATS Account Number	Fraction of Total Allowances to be Deducted	Common Stack Number
0 0 0 0 0 1 0 0 0 0 0 1	0 . 6 0 0 0 0 0 0	C S 1 0
0 0 0 0 0 1 0 0 0 0 0 4	0 . 4 0 0 0 0 0 0	C S 1 0

Step 3 Read the Certifications, type your AAR ID number, sign, and date.

Paperwork Burden Estimate

The public reporting and recordkeeping burden for this collection of information is estimated to average 1 hour per response annually. Burden means the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal agency. This includes the time needed to review instructions; develop, acquire, install, and utilize technology and systems for the purposes of collecting, validating, and verifying information, processing and maintaining information, and disclosing and providing information; adjust the existing ways to comply with any previously applicable instructions and requirements; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information. An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number.

Send comments on the Agency's need for this information, the accuracy of the provided burden estimates, and any suggested methods for minimizing respondent burden, including through the use of automated collection techniques to the Director, Collection Strategies Division, U.S. Environmental Protection Agency (2822), 1200 Pennsylvania Ave., NW., Washington, D.C. 20460. Include the OMB control number in any correspondence. Do not send the completed form to this address.
