Subject: Change Request for Generic Clearance #0925-0532

The *Eunice Kennedy Shriver* National Institute of Child Health and Human Development (NICHD) would like to request an additional 600 hours to our currently approved submission, Generic Clearance #0925-0532. At the time when the main submissions for generic clearances were submitted, I/Cs were created and therefore the burden was taken up without surveys attached to them. The process now is different and allows for sub-studies to be submitted without this problem. Thanks
