E. BALD EAGLE OR GOLDEN EAGLE TRANSPORT INTO THE UNITED STATES FOR SCIENTIFIC OR EXHIBITION PURPOSES

(Bald and Golden Eagle Protection Act, 50 CFR 22.21)

A Federal Eagle Transport Permit is required to transport Bald Eagle (*Haliaeetus leucocephalus*) or Golden Eagle (*Aquila chrysaetos*) parts into the United States for scientific or exhibition purposes. The items may remain in the United States on a temporary basis only; the BGEPA prohibits permanent importation. The item(s) may not change ownership and the same items, unchanged, must be returned to the sender at the conclusion of the project or exhibit. If you will be transporting species listed under the Migratory Bird Treaty Act (e.g., songbird, hawk), in addition to Bald Eagle or Golden Eagle parts to the United States, you may include them in this application. Live eagles or eagle eggs cannot be transported into or out of the United States.

Only zoological parks, scientific societies and museums that meet the definition of “public” under 50 CFR 10.12 are eligible for this permit. (50 CFR 22.21) Therefore, you must complete section B on page 1 of this application.

(If any species you propose to transport/ import/export is listed in Appendix I of CITES, or listed under the U.S. Endangered Species Act or the Wild Bird Conservation Act, you may require additional import or export permits under those laws.) All wildlife shipments must enter and exit the United States through a wildlife port designated in 50 CFR 14.12 (http://www.fws.gov/le/ImpExp/Contact_Info_Ports.htm), unless a port exception is authorized on your permit or you have a separate exception to designated port permit issued under 50 CFR 14.
