

plays an important role in the development of scientific thought on the concept of extinction and the relationship of geology/paleontology.

Cave Without a Name is located outside of Boerne, Texas, and is significant for some of the largest and best examples of speleothems in the Edwards Plateau region. Blue speleothems found in the cave are the only ones known to exist in Texas and are exceedingly rare nationally. The cave also contains a rich fauna and significant paleontological deposits.

The Chazy Fossil Reef is a surface exposure of an Ordovician fossil reef, approximately 450 million years old. It is significant as the oldest known occurrence of a biologically diverse fossil reef, the earliest appearance of fossil coral in a reef environment, and the first documented example of the ecological principle of faunal succession.

The Nottingham Park Serpentine Barrens site is an outstanding example of the serpentine barren natural feature in the Piedmont Upland region. This feature is characterized by thin soils that are high in concentrations of metals which are toxic to many plant species. The site supports shallow serpentine soils, rock outcrops, and unique vegetation communities, including serpentine grasslands and open savanna that contain rare and endemic species. The site is within a county park and is actively used for science and education.

Abstract: The America the Beautiful—the National Parks and Federal Recreational Lands Access Pass and Senior Passes are free, lifetime Passes issued by the Bureau of Land Management, the Bureau of Reclamation, the U.S. Fish and Wildlife Service, the U.S. Forest Service, and the National Park Service. The Interagency Access Pass is available to citizens or

persons domiciled in the United States, regardless of age, who have a medical determination and documentation of permanent disability. The Interagency Senior Pass is available to citizens or persons domiciled in the United States who are 62 years of age or older.

In the past, the processes to obtain these Passes required in-person application. The proposed revision to current policy creates processes for applicants to obtain either Pass through the mail. Standard Operating Procedures have been updated to reflect the change to allow applicants to submit applications by mail along with photo copies of identification verifying U.S. residency or citizenship and documentation of disability for the Interagency Access Pass or U.S. residency or citizenship, and age for the Interagency Senior Pass. The process for obtaining an Interagency Access or Senior Pass in person is not changing.
