SPECIFIC QUESTIONS

1. Describe the project and its purpose:

The Department of Homeland Security's Federal Emergency Management Agency (FEMA) administers the National Flood Insurance Program (NFIP) and maintains the maps that depict flood hazard information. The NFIP regulations Section 44 CFR 65 and 70 outline the data that must be submitted by a requestor who wishes to revise a Flood Insurance Rate Map (FIRM). These revisions are typically to the base (1-percent-annual chance) floodplain, Base Flood Elevations, and/or regulatory floodway. In order to revise the floodplain/floodway, the requestor must submit scientific or technical data in support of the proposed revision.

FEMA Form MT-2 "*Application Forms for Conditional Letters of Map Revision (CLOMR) and Letters of Map Revision (LOMRs)*" supplements the general information requirements in the NFIP regulations and establishes an organized, systematic approach to collect data needed to revise a FIRM. Minor updates to the MT-2 form are being made during this renewal process.

2. Status of Project:

This is a new development effort.

This is an existing project.

Date first developed:

Date last updated: December 31, 2007
