\* The E-Government Act of 2002 defines these terms by reference to the definition sections of Titles 40 and 44 of the United States Code. The following is a summary of those definitions:

•“Information Technology” means any equipment or interconnected system or subsystem of equipment, used in the automatic acquisition, storage, manipulation, management, movement, control, display, switching, interchange, transmission, or reception of data or information. See 40 U.S.C. § 11101(6).

•“Information System” means a discrete set of information resources organized for the collection, processing, maintenance, use, sharing, dissemination, or disposition of information. See: 44. U.S.C. § 3502(8).

Note, for purposes of this form, there is no distinction made between national security systems or technologies/systems managed by contractors. All technologies/systems should be initially reviewed for potential privacy impact.

## SPECIFIC QUESTIONS

**1. Describe the project and its purpose:**

The Chemical Security Awareness Training Program (CSATP) is an Internet-based, interactive training program. The purpose of the CSATP training is to increase the level of security awareness among general employees of chemical facilities and to enhance the security of the United States. The CSATP will provide policies, procedures, and practices which govern security issues related to protection of chemical industry infrastructure assets in response to natural disasters, criminal, and terrorist acts. The CSATP is voluntary training that will be available to general employees at chemical facilities of the U.S. chemical sector.

**2. Status of Project:**

This is a new development effort.
