OMB Control Number: Expiration Date:

DEFENSE INDUSTRIAL BASE ASSESSMENT: Healthcare and Public Health (HPH) Sector Survey for Manufacturers

SCOPE OF ASSESSMENT

The U.S. Department of Commerce, Bureau of Industry and Security (BIS), Office of Technology Evaluation (OTE), in coordination with the Department of Homeland Security (DHS), is conducting an assessment regarding the supply chain within the Healthcare and Public Health (HPH) sector. The principal goal of this assessment is to identify foreign sourcing, critical dependencies and other supply chain issues that could have a negative impact on the delivery of effective medical services in the United States.

RESPONSE TO THIS SURVEY IS REQUIRED BY LAW

A response to this survey is required by law (50 U.S.C. app. Sec. 2155). Failure to respond can result in a maximum fine of \$10,000, imprisonment of up to one year, or both. Information furnished herewith is deemed confidential and will not be published or disclosed except in accordance with Section 705 of the Defense Production Act of 1950, as amended (50 U.S.C App. Sec. 2155). Section 705 prohibits the publication or disclosure of this information unless the President determines that its withholding is contrary to the national defense. Information will not be shared with any non-government entity, other than in aggregate form. The information will be protected pursuant to the appropriate exemptions from disclosure under the Freedom of Information Act (FOIA), should it be the subject of a FOIA request.

Not withstanding any other provision of law, no person is required to respond to nor shall a person be subject to a penalty for failure to comply with a collection of information subject to the requirements of the Paperwork Reduction Act unless that collection of information displays a currently valid OMB Control Number.

BURDEN ESTIMATE AND REQUEST FOR COMMENT

Public reporting burden for this collection of information is estimated to average 13 hours per response, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. Send comments regarding this burden estimate or any other aspect of this collection of information to BIS Information Collection Officer, Room 6883, Bureau of Industry and Security, U.S. Department of Commerce, Washington, D.C. 20230, and to the Office of Management and Budget, Paperwork Reduction Project (OMB Control No.), Washington, D.C. 20503.

BUSINESS CONFIDENTIAL - Per Section 705(d) of the Defense Production Act

Sec	tion I General Instructions
Α.	Your company is required to complete this survey using an Excel template, which can be downloaded from the BIS website. At your request, BIS staff will e-mail the Excel survey template directly to your company. For your convenience, a PDF version of the survey is available on the BIS website to aid internal data collection. PLEASE DO NOT submit the PDF version of your company's response to BIS.
B.	If information is not available from your records in the form requested, you may furnish estimates. Please indicate in the comment box on the page when you use an estimate.
	Questions related to this survey should be directed to: Anna Bruse, Trade and Industry Analyst, (202) 482-7418
C.	Erika Maynard, Trade and Industry Analyst, (202) 482-5572
	Michael Finucane, Trade and Industry Analyst, (202) 482-3893
D.	Upon completion, review and certification of the survey, transmit the survey via e-mail to CFDHealthcare@bis.doc.gov .
	For letter correspondence to the Office of Technology Evaluation (OTE), please write to:
	Brad Botwin, Director, Industrial Studies
	Office of Technology Evaluation, Room 1093
E.	U.S. Department of Commerce
	1401 Constitution Avenue, NW
	Washington, DC 20230
	Please do not submit completed surveys to this address; all surveys must be submitted electronically.
	BUSINESS CONFIDENTIAL - Per Section 705(d) of the Defense Production Act

Sec	tion II	Who Must Respond	
A.		tegrated/assembled healthcare-related pharmaceutical,	
	Identify the general product areas yo	below, as applicable.	
	Anaesthetics	Cancer Treatments	
	Analgesics	Cardiovasculars	
	Antibacterials	Hormones	
В.	Antibiotics	Immunosupressants	
Б.	Anticonvulsants, Sedatives, Relaxants	Stimulants	
	Anti-Inflammatories	Vaccines	
	Antileprosy	Surgical and Medical Instruments	
	Antiprotozoals	Medical Devices	
	Antivirals		
C.	Does your company also manufacture equipment, or device products?	or integrate/assemble non-healthcare related pharmaceutical,	
C.	If 'Yes,' indicate the percentage of you equipment, or device products:	r business that is not related to healthcare pharmaceutical,	
		Exemption From Survey	
prod	ducts identified in the Critical Commodit	you may be exempt from completing this U.S. Government survies List (Sections 2.a through 2.h on this survey). If your comparete Section 1.c and call one of the BIS contacts listed on the pre-	ny does not
Co	omments:		
	BUSINESS CONFID	DENTIAL - Per Section 705(d) of the Defense Production Act	

on III	Definitions
Alternate Source	A supplier of the same product or an alternative product that, in the opinion of experts qualified by scient training and experience to evaluate the safety and effectiveness of pharmaceuticals and/or medical devices, it is prudent to assume or ascertain the liability of similar side effects and contraindications.
Component	Any raw material, substance, piece, part, software, firmware, labeling, or assembly which is intended to included as part of the finished, packaged, and labeled device.
Disruption Clauses	Contract provisions that impose penalties on suppliers to recoup losses in the advent of a delivery/service delay or interruption.
Finished Product	Any device, accessory to any device, or drug product, that is suitable for use or capable of functioning, whether or not it is packaged, labeled, or sterilized.
Manufacturing Material	Any material or substance used in or used to facilitate the manufacturing process, a concomitant constituent, or a byproduct constituent produced during the manufacturing process, which is present in on the finished device/product as a residue or impurity not by design or intent of the manufacturer.
Sole Source/Sole Manufacturer	A supplier that is the only manufacturer or distributor of a product. For this product, there are either 1) nalternate products or 2) potential alternate products have substantially different levels of effectiveness and/or potential side effects.
Surge Capacity Provisions	Contract provisions that allow the contracting party to a) increase the quantity of products or services ca for under the contract by a certain amount; and/or b) accelerate the rate of delivery established under the contract.

Section 2.a Critical Commodities List

From the product areas listed below, indicate those that your company currently manufactures or integrates/assembles. For each area, identify the top three discrete products (by an estimate of annual sales) your company currently produces and whether your company, to the best of your knowledge, is the sole U.S.-based manufacturer, sole global manufacturer, or not a sole manufacturer of this product. If you are not sure, select "Not Sure" from the drop-down box. Finally, indicate the primary manufacturing facility in which each product is produced (the facility that adds the most value to the finished product) based on those identified in Section 1.c.

Differentiate products based on their unique effects or capabilities. Do not differentiate products based solely on dosage, strength, or method of delivery.

Note: If the product you manufacture does not fit the product area exactly (e.g. it is a combination of multiple product areas, your company classifies its product under a similar, but different area, etc.) make note of this in the comments area in the far right column.

are either 1) no alternate products or	2) poterniar anterna		Anaesthetics	it levels of effectiv	eness and/or potentia	ar side errects.

Section 2.g

Critical Commodities List

From the product areas listed below, indicate those that your company currently manufactures or integrates/assembles. For each area, identify the top three discrete products (by an estimate of annual sales) your company currently produces and whether your company, to the best of your knowledge, is the sole U.S.-based manufacturer, sole global manufacturer, or not a sole manufacturer of this product. If you are not sure, select "Not Sure" from the drop-down box. Finally, indicate the primary manufacturing facility in which each product is produced (the facility that adds the most value to the finished product) based on those identified in Section 1.c.

Differentiate products based on their unique effects or capabilities. Do not differentiate products based solely on dosage, strength, or method of delivery.

Note: If the product you manufacture does not fit the product area exactly (e.g. it is a combination of multiple product areas, your company classifies its product under a similar, but different area, etc.) make note of this in the comments area in the far right column.

Section 3.a Critical Commodities - Non-U.S. Suppliers

Identify any components, manufacturing materials, or finished products **provided by suppliers based outside the United States** that are critical to the final manufacture of the products identified in the previous section. Indicate the product area and product name(s) for which this component/material is required and the supplier's name and location. In addition, indicate whether the component/material is supplied by an internal company supplier/subsidiary or is supplied by an outside company. Finally, identify, to the best of your company's understanding, whether there is an alternate U.S.-based or non-U.S. based source available for each component/material.

Section 3.c Critical Commodities - Non-U.S. Suppliers

Identify any components, manufacturing materials, or finished products **provided by suppliers based outside the United States** that are critical to the final manufacture of the products identified in the previous section. Indicate the product area and product name(s) for which this component/material is required and the supplier's name and location. In addition, indicate whether the component/material is supplied by an internal company supplier/subsidiary or is supplied by an outside company. Finally, identify, to the best of your company's understanding, whether there is an alternate U.S.-based or non-U.S. based source available for each component/material.

Section 4.a Critical Commodities - Utilization

Based on the products identified in the Section 2, indicate your company's manufacturing capacity utilization rate for each **product area** from 2007-2010. Indicate your company's maximum annual manufacturing capacity in units for 2009. In addition, using your company's 2010 production as a baseline, estimate the lead time required to increase production of each product area by the specified amount. For the purpose of this estimate, make the following assumptions:

- 1) Existing U.S. production facilities are to be operated at maximum practical productive capacity;
- 2) Labor availability reflects normal local market conditions;
- 3) Material availability reflects normal local market conditions; and
- 4) Facilities operate at the maximum rate possible given technological constraints.

Finally, from the drop-down list provided, select the primary factor that would prevent a production increase, if applicable.
