

Attachment B: National Family Caregivers Association (NFCA)

The National Family Caregivers Association educates, supports, empowers and speaks up for the more than 65 million Americans who care for loved ones with a chronic illness or disability or the frailties of old age. NFCA reaches across the boundaries of diagnoses, relationships and life stages to help transform family caregivers' lives by removing barriers to health and well being.

NFCA offers a virtual library of information and educational materials ranging from national educational campaigns to Tips and Tools for family caregivers, information on agencies and organizations which provide caregiver support, to communicating effectively workshops.

Members who belong to NFCA have access to the latest resources, are able to connect with others and find support with NFCA's Family Caregiver Community. Throughout the year, NFCA offers family caregivers resources including: monthly e-letters and quarterly newsletter, educational brochures to support day-to-day responsibilities.
