Section II – INDUCTION INTERVIEW

Part A. INTRODUCTION

I would like to begin with a brief review of the background for this study.

INSTRUCTIONS

Provide the administrator or other facility representative with a brief introduction to the study and a general overview of procedures.

Cover the following points –

- (1)** NHAMCS is a sister survey of the National Ambulatory Medical Care Survey (NAMCS). NAMCS collects data on visits to physicians in office-based practices
- (2)** NAMCS and NHAMCS are sponsored by the National Center for Health Statistics of the Centers for Disease Control and Prevention
- (3)** NAMCS and NHAMCS data are used extensively by health care organizations, health services planners, researchers, and educators
- (4)** Annually, there are almost 200 million visits to hospital emergency and outpatient departments and 35 million visits to ambulatory surgery centers, including 15 million visits to freestanding ambulatory surgery centers
- (5)** The U.S. Census Bureau is the data collection agent for the study
- (6)** The study is authorized by Title 42, U.S. Code, Section 242k
- (7)** Participation is voluntary
- (8)** Any identifiable information will be held confidential and will be used only by NCHS staff, contractors or agents, only when necessary and with strict controls, and will not be disclosed to anyone else without the consent of your facility. By law, every employee as well as every agent has taken an oath and is subject to a jail term of up to five years, a fine of up to \$250,000, or both if he or she willfully discloses ANY identifiable information about your facility and its patients
- (9)** NO patients' names or identifiers are collected
- (10)** The study was approved by the NCHS Research Ethics Review Board or IRB
- (11)** Data from the study will be used only in statistical summaries
- (12)** NHAMCS excludes office-based physicians (these are covered under the NAMCS)
- (13)** NHAMCS excludes the following types of ASCs: dentistry, podiatry, abortion, small procedures, birth center, and family planning.
- (14)** Only a 4-week data collection period
- (15)** On average, sample of approximately 100 ASC visits per hospital and 100 freestanding ASC visits.

SHOW PATIENT RECORD FORM

- (16)** Form takes only 6 minutes to complete
- (17)** Forms are to be completed by ASC staff at their convenience
- (18)** Portion containing patient's name or other identifying information is removed before collecting

Section II – INDUCTION INTERVIEW – Continued

Part B. SURVEY IMPLEMENTATION

As I mentioned earlier, I would like to discuss the plan for conducting the study. This ASC has been assigned to a 4-week data collection period beginning on Monday, (/).
Month Day

First, I would like to discuss the steps needed to obtain approval for the study.

14a. Are there any additional steps needed to obtain permission for the ASC to participate in the study?

1 Yes – Specify the necessary steps below ↘

2 No

14b. Now I would like to make arrangements to obtain the information needed for sampling. I will need to (know/verify) how your ambulatory surgery center is organized and obtain an estimate of the number of patient visits expected during the 4-week reporting period. Would you prefer I (get/verify) this information from you or someone else?

1 Respondent

2 Someone else – Specify below ↘

If different respondent(s), arrange to obtain data today if possible. Otherwise arrange an appointment with designated person(s). Briefly explain the study to the new respondent(s). Then proceed with Section III, Ambulatory Surgery Center Description as appropriate. Thank current respondent for his/her time and cooperation.
