E. REGISTRATION OF A PRODUCTION FACILITY FOR EXPORT OF NATIVE CITES SPECIES

This application is to be used by qualified production facilities for an annual registration to export certain native species. The registration will allow the registrant to obtain any number of single-use CITES export documents (at a cost of \$5 each) for approved species. Please contact the Division of Management Authority or see our webpage at www.fws.gov/permits for a list of qualified species and conditions that must be met to qualify for registration, or to answer any questions you may have.

Note: the U.S. FWS may not be able to issue CITES documents for the commercial export of Appendix-I specimens, unless the specimens were obtained from animals produced at a CITES-registered Appendix-I commercial breeding operation. For more information on registering an Appendix-I commercial breeding operation, contact the Division of Management Authority at 800-358-2104 or managementauthority@fws.gov.

Electronic submission of inventories, photographs, and receipts: Some applications contain extensive inventories and/or a large number of photographs or receipts. You may provide electronic versions of these documents. Such a submission may assist in expediting the processing of your application since it may reduce data entry by the U.S. Fish and Wildlife Service. You may include a disk containing your information or check here if you would like to be contacted to provide it via email.

Provide the following information. Complete all questions on the application. Mark questions that are not applicable with "N/A". If needed, use a separate sheet of paper. If you are applying for multiple specimens, be sure to indicate which specimen you are addressing in each response.
