

**The following text will serve as the script for the non-response bias test for this collection.**

Hello my name is\_\_\_\_\_. We are following up with a few people who did not respond to our on-line survey. You may remember receiving an e-mail asking you to take a survey for the National Enhanced Elevation Study. I am hoping that you will be able to take about five minutes to answer a few questions. These questions are from the on-line survey and by answering them, you will help us complete final stages of data collection for this survey. At this time, I would like to let you know that you are not required to respond to any of these questions and that your responses will only be used to complete our survey process. May I begin?

1. *Do you have requirements for topographic data? Yes or No*
2. *Do you have requirements for bathymetric data? Yes or No*
  - if “yes” ask question 3
  - if “no” end the survey here and thank the respondent for their participation
3. *What are your operation benefits from bathymetric data?*

Thank you for your time.
